The redemption amount for each Note will be its Prevailing Nominal Amount.

Neither this Prospectus nor any other information supplied in connection with the Notes constitutes an offer or invitation by or on behalf of the Issuer or any of the Managers to subscribe for or to purchase Notes.

Investing in the Notes involves certain risks. For a discussion of certain significant factors affecting investments in the Notes, see "*Risk Factors*". The Notes may not be a suitable investment for all investors. Each potential investor in the Notes must determine the suitability and appropriateness of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes;
- (iv) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets;
- (v) know, that it may not be possible to dispose of the Notes for a substantial period of time, if at all;
- (vi) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

During the life of the Notes, the risk factors specified in section "*Risk Factors*" below may impact the Notes at different points in time and for different lengths of time. The Notes may have a risk profile that changes over time. Prospective investors should seek advice from a professional financial adviser in order to further discuss and understand how the risk profile of the Notes will affect their overall investment portfolio. More than one risk factor may have simultaneous effect with regard to the Notes such that the effect of a particular risk factor may not be predictable. In addition, more than one risk factor may have a compounding effect which may not be predictable. No assurance can be given as to the effect that any combination of the risk factors set out in section "*Risk Factors*" may have on the value of the Notes. If one or more of the risks described below occurs, this may result in material decreases in the price of the Notes or, in the worst-case scenario, in a total loss of interest and the capital invested by the investor.

This Prospectus reflects the status as of the Date of Approval. Neither the delivery of this Prospectus nor the offering, sale or delivery of Notes shall in any circumstances imply that the information contained in the aforementioned related documents is accurate and complete subsequent to the date hereof or that there has been no adverse change in the financial condition of the Issuer since such date or that any other information is correct at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

This Prospectus does not constitute an offer of, or an invitation or solicitation by or on behalf of the Issuer or the Managers or any affiliate of any of them to subscribe for or purchase, any Notes in any jurisdiction by any person to whom it is unlawful to make such an offer, invitation or solicitation in such jurisdiction. Applicable law in certain jurisdictions may restrict the distribution of this Prospectus and the offering or sale of the Notes. The Issuer and the Managers require all recipients of this Prospectus to inform themselves about and to observe any such restrictions. For a description of certain restrictions on offers and sales of Notes and distribution of this Prospectus as a whole, see "*Subscription and Sale of the Notes*" below.

Neither the U.S. Securities and Exchange Commission, any state securities commission nor any other regulatory authority, has approved or disapproved of the Notes; nor have any of the foregoing authorities passed upon or endorsed the merits of this offering or the accuracy or adequacy of this Prospectus. Any representation to the contrary is a criminal offense.

In particular, the Notes have not been and will not be registered under the United States Securities Act of 1933 (as amended) (the "**Securities Act**") and may not be offered or sold in the United States or to, or for the account or benefit of, (a) a "**U.S. person**" as defined in Regulation S under the Securities Act ("**Regulation S**"), (b) a person other than a "Non-United States person" as defined in Rule 4.7 under the United States Commodity Exchange Act of 1936, as amended (the "**Commodity Exchange Act**"), or (c) a "**U.S. person**" as defined in the Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations promulgated by the Commodity Futures Trading Commission (the "**CFTC**") pursuant to the Commodity Exchange Act, or in regulations or guidance adopted under the Commodity Exchange Act (each such person, a "**U.S. person**").

The Notes do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the Commodity Exchange Act, and trading in the Notes has not been approved by the CFTC pursuant to the Commodity Exchange Act.

RESTRICTIONS ON MARKETING AND SALES TO RETAIL INVESTORS

The Notes issued pursuant to this Prospectus are complex financial instruments and are not a suitable or appropriate investment for all investors. In some jurisdictions, regulatory authorities have adopted or published laws, regulations or guidance with respect to the offer or sale of securities such as the Notes to retail investors.

In particular, in June 2015, the U.K. Financial Conduct Authority (the "**FCA**") published the Product Intervention (Contingent Convertible Instruments and Mutual Society Shares) Instrument 2015, which took effect from 1 October 2015 (the "**PI Instrument**"). In addition, (i) on 1 January 2018, the PRIIPs Regulation became directly applicable in the EEA and (ii) MiFID II was required to be implemented in EEA member states by 3 January 2018. Together, the PI Instrument, COBS, MiFID II, the PRIIPs Regulation, Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**UK MiFIR**"), Regulation (EU) No 2017/565 as it forms part of the domestic law of the UK by virtue of the European Union (Withdrawal) Act 2018 ("**UK Delegated Regulation**"), and the UK PRIIPs Regulation are referred to as the "**Regulations**".

The Regulations set out various obligations in relation to (i) the manufacture and distribution of financial instruments and the (ii) offering, sale and distribution of packaged retail and insurance-based investment products and certain contingent write-down or convertible securities such as the Notes. The Managers are required to comply with some or all of the Regulations. Potential investors in the Notes should inform themselves of, and comply with, any applicable laws, regulations or regulatory guidance with respect to any resale of the Notes (or any beneficial interests therein), including the Regulations. By purchasing, or making or accepting an offer to purchase any Notes (or a beneficial interest in the Notes) from the Issuer and/or the Managers each prospective investor represents, warrants, agrees with and undertakes to the Issuer and each of the Managers that:

- (1) (A) it is not a retail client (as defined in MiFID II, UK Delegated Regulation or COBS); and
(B) it is not a customer within the meaning of Directive (EU) 2016/97 (Insurance Distribution Directive), where that customer would not qualify as a professional client as defined in point (10) of Article 4 (1) of MiFID II;
- (2) whether or not it is subject to the Regulations, it will not:
 - (A) sell or offer the Notes (or any beneficial interest therein) to retail clients (as defined in MiFID II, UK Delegated Regulation or COBS); or
 - (B) communicate (including the distribution of the Prospectus) or approve an invitation or inducement to participate in, acquire or underwrite the Notes (or any beneficial interests therein) where that invitation or inducement is addressed to or disseminated in such a way that it is likely to be received by a retail client (in each case within the meaning of the Regulations);and in selling or offering the Notes or making or approving communications relating to the Notes it may not rely on the limited exemptions set out in COBS;
- (3) if it is a person in Hong Kong, it is a 'professional investor' as defined in the Securities and Futures Ordinance (Cap. 571) of Hong Kong (the "**SFO**") and any rules made under the SFO; and
- (4) it will at all times comply with all applicable laws, regulations and regulatory guidance (whether inside or outside the EEA or the UK) relating to the promotion, offering, distribution and/or sale of the Notes (or any beneficial interests therein), including (without limitation) MiFID II, UK Delegated Regulation or the UK FCA Handbook and any other such laws, regulations and regulatory guidance as to determining the appropriateness and/or suitability of an investment in the Notes (or any beneficial interests therein) by investors in any relevant jurisdiction.

Each prospective investor further acknowledges that:

- (1) the identified target market for the Notes (for the purposes of the product governance obligations in MiFID II or UK Delegated Regulation), taking into account the five categories referred to in item 18 of the Guidelines published by the European Securities and Markets Authority ("**ESMA**") on 5 February 2018, is eligible counterparties and professional clients only;
- (2) no key information document (KID) under the PRIIPs Regulation has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation; and
- (3) no key information document (KID) under the UK PRIIPs Regulation has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

Where acting as agent on behalf of a disclosed or undisclosed client when purchasing, or making or accepting an offer to purchase, any Notes (or any beneficial interests therein) from the Issuer and/or the Managers the foregoing representations, warranties, agreements and undertakings will be given by and be binding upon both the agent and its underlying client.

BENCHMARKS DISCLOSURE – STATEMENT ON REGISTRATION OF BENCHMARK ADMINISTRATOR

Amounts payable under the Notes are calculated by reference to the 5 year swap rate for euro swap transactions, expressed as an annual rate, which is provided by ICE Benchmark Administration Limited (the "**Administrator**"). As at the date of this Prospectus, the Administrator does not appear on the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of Regulation (EU) 2016/1011 (the "**Benchmarks Regulation**"). As far as the Issuer is aware, the transitional provisions in Article 51 of the Benchmarks Regulation apply, such that the Administrator is not currently required to obtain authorisation or registration (or, if located outside the European Union, recognition, endorsement or equivalence).

U.S. INFORMATION

The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States of America (the "**United States**") or its possessions or to United States persons, except in certain transactions permitted by U.S. Treasury regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and the Treasury regulations promulgated thereunder.

SERVICE OF PROCESS AND ENFORCEMENT OF CIVIL LIABILITIES

The Issuer is incorporated as a German stock corporation with limited liability (*Aktiengesellschaft*). All the members of the Management Board (*Vorstand*) and most of the members of the Supervisory Board (*Aufsichtsrat*) of the Issuer are non-residents of the United States, and all or a portion of the assets of the Issuer and such persons are located outside the United States. As a result, it may not be possible for holders or beneficial owners of the Notes to effect service of process within the United States upon the Issuer or such persons, or to enforce against any of them in U.S. courts judgments obtained in such courts predicated upon the civil liability provisions of the federal securities or other laws of the United States or any state or other jurisdiction thereof.

STABILISATION

IN CONNECTION WITH THE ISSUE OF THE NOTES, DEUTSCHE BANK AKTIENGESELLSCHAFT (THE "STABILISING MANAGER") (OR PERSONS ACTING ON ITS BEHALF) MAY OVER-ALLOT NOTES OR EFFECT TRANSACTIONS WITH A VIEW TO SUPPORTING THE PRICE OF THE NOTES AT A LEVEL HIGHER THAN THAT WHICH MIGHT OTHERWISE PREVAIL. HOWEVER, THERE IS NO ASSURANCE THAT THE STABILISING MANAGER (OR PERSONS ACTING ON ITS BEHALF) WILL UNDERTAKE STABILISATION ACTION. ANY STABILISATION ACTION MAY BEGIN ON OR AT ANY TIME AFTER THE DATE ON WHICH ADEQUATE PUBLIC DISCLOSURE OF THE TERMS OF THE OFFER OF THE NOTES IS MADE AND, IF BEGUN, MAY BE ENDED AT ANY TIME, BUT IT MUST END NO LATER THAN THE EARLIER OF 30 CALENDAR DAYS AFTER THE ISSUE DATE AND 60 CALENDAR DAYS AFTER THE DATE OF THE ALLOTMENT OF THE NOTES. ANY SUCH STABILISATION ACTION SHALL BE CONDUCTED IN COMPLIANCE WITH ALL LAWS, DIRECTIVES, REGULATIONS AND RULES OF ANY RELEVANT JURISDICTION.

The obligations under the Notes constitute unsecured and subordinated obligations of the Issuer, ranking *pari passu* among themselves and, subject to applicable laws from time to time *pari passu* with all other equally subordinated obligations of the Issuer constituting Own Funds Instruments in the form of AT1 Instruments. In addition, subject to applicable laws from time to time, claims under the Notes rank *pari passu* with the claims under the subordinated support undertakings entered into by the Issuer in relation to the transactions of Deutsche Postbank Funding Trust I EUR 300,000,000 Registered Noncumulative Trust Preferred Securities (ISIN DE000A0DEN75), Deutsche Postbank Funding Trust II EUR 500,000,000 Registered Noncumulative Trust Preferred Securities (ISIN DE000A0DHUM0), and Deutsche Postbank Funding Trust III EUR 300,000,000 Registered Noncumulative Trust Preferred Securities (ISIN DE000A0D24Z1).

In the event of resolution measures imposed on the Issuer and in the event of the dissolution, liquidation, insolvency, composition or other proceedings for the avoidance of insolvency of, or against, the Issuer, the obligations under the Notes shall be fully subordinated to all obligations which do not qualify as Own Funds Instruments in the form of AT1 Instruments or Common Equity Tier 1 instruments; this includes

- (i) all claims of unsubordinated creditors of the Issuer (including claims against the Issuer under its unsubordinated non-preferred debt instruments within the meaning of § 46f(6) sentence 1 of the German Banking Act (*Kreditwesengesetz* – "KWG") (also in conjunction with § 46f(9) KWG) or any successor provision thereto),
- (ii) the claims specified in § 39(1) nos. 1 to 5 of the German Insolvency Statute (*Insolvenzordnung* – "InsO") or any successor provision thereto,
- (iii) contractually subordinated obligations within the meaning of § 39(2) InsO or any successor provision thereof of the Issuer which do not qualify as Own Funds Instruments at the time of resolution measures being imposed on the Issuer or in the event of a dissolution, liquidation, insolvency, composition or other proceedings for the avoidance of insolvency of, or against, the Issuer,
- (iv) the claims under tier 2 instruments with the meaning of Article 63 CRR of the Issuer, and
- (v) all other obligations of the Issuer which pursuant to mandatory law (including pursuant to § 46f(7a) sentence 3 KWG or any successor provision thereto) have to be satisfied with priority to AT1 Instruments.

In any such event, no amounts shall be payable in respect of the Notes until all senior ranking obligations in accordance with this provision have been satisfied in full.

If the Notes in their entirety no longer qualify as AT1 Instruments or other Own Funds Instruments, the obligations under the Notes will, pursuant to § 46f (7a) KWG or any successor provision thereto, rank in priority to all obligations under Own Funds Instruments.

Note on Payment Restrictions prior to an Insolvency

The provisions on subordination shall establish a payment prohibition to the effect that payments on the Notes may only be made by the Issuer at its sole discretion and may only be demanded by the Holders in accordance with this subordinated ranking provision; this includes payments in connection with a purchase of the Notes by the Issuer.

In addition, irrespective of, and even prior to, the opening of any insolvency or liquidation proceedings over the assets of the Issuer, pursuant to the Terms and Conditions of the Notes, the Issuer shall not make a scheduled payment of interest or principal if (i) the Issuer is over-indebted within the meaning of § 19 InsO or illiquid within the meaning of § 17 InsO on the date of the relevant payment, or (ii) the payment of the relevant amount would result in an over-indebtedness within the meaning of § 19 InsO or illiquidity within the meaning of § 17 InsO of the Issuer. Such a prohibition on payment may be in effect for an indefinite period of

time and even permanently.

No Set-Off; No Security

In accordance with § 10(5) KWG, no Holder may set off his claims arising under the Notes against any claims of the Issuer. No collateral or guarantee is and shall at any time be provided to secure claims of the Holders under the Notes. Any collateral or guarantee already provided or granted in the future in connection with other liabilities of the Issuer may not be used for claims under the Notes.

Note on the Possibility of Statutory Resolution Measures

Under the relevant resolution laws and regulations as applicable to the Issuer from time to time, the Notes may be subject to the powers exercised by the competent resolution authority to: (a) write down, including writing down to zero, the claims for payment of the principal amount, the interest amount or any other amount in respect of the Notes; (b) convert these claims into ordinary shares of (i) the Issuer or (ii) any group entity or (iii) any bridge bank or other instruments of ownership qualifying as Common Equity Tier 1 instruments (and issue or confer on the Holders such instruments); and/or (c) apply any other resolution measure, including, but not limited to, (i) any transfer of the Notes to another entity, (ii) the amendment, modification or variation of the Terms and Conditions of the Notes or (iii) the cancellation of the Notes, (each, a "**Resolution Measure**"). The Holders shall be bound by any Resolution Measure. No Holders shall have any claim or other right against the Issuer arising out of any Resolution Measure. In particular, the exercise of any Resolution Measure shall not constitute an event of default.

Interest Payments

Pursuant to the Terms and Conditions of the Notes, the Issuer will (subject to the provisions set out below, cf. "*Discretionary Cancellation of Interest*" and "*Compulsory Cancellation of Interest*") from (and including) the Issue Date owe Interest Payments at the applicable Rate of Interest (as defined in the Terms and Conditions of the Notes, cf. "*Rate of Interest*"), calculated annually on the basis of the Prevailing Nominal Amount of the Notes (which may be lower than the Initial Nominal Amount of the Notes (cf. "*Write-down of the Redemption Amount and the Nominal Amount of the Notes*" below) and payable annually in arrear on each Interest Payment Date.

"**Prevailing Nominal Amount**" means, with respect to any Note: (i) at the date of issue, the Initial Nominal Amount of such Note and (ii) thereafter, the then outstanding nominal amount of such Note as reduced by any write-downs pursuant to § 5(4)(a) of the Terms and Conditions of the Notes (to the extent not made up for by write-ups pursuant to § 5(4)(b) of the Terms and Conditions of the Notes).

Rate of Interest

The applicable Rate of Interest for the period from the Issue Date (inclusive) to 30 April 2027 (exclusive), being the the First Reset Date of the Notes, will be a fixed rate of 4.500 per cent. *per annum*; thereafter, the applicable Rate of Interest (as defined in the Terms and Conditions of the Notes) will be reset at five year intervals on each Reset Date (as defined in the Terms and Conditions of the Notes) on the basis of the then prevailing 5-year swap rate for euro swap transactions plus the initial credit spread of 4.552 per cent., subject to certain benchmark replacement fallback provisions as set forth § 3(2) of the Terms and Conditions of the Notes.

Discretionary Cancellation of Interest

Interest Payments will not accrue if the Issuer has elected, at its sole discretion, to cancel payment of interest (non-cumulative – as set out below, cf. "*Interest Payments are non-cumulative*"), in whole or in part, on any Interest Payment Date.

See § 3(8) of the Terms and Conditions of the Notes.

Compulsory Cancellation of Interest

In addition, Interest Payments will not accrue, in whole or in part, on any Interest Payment Date:

- (a) to the extent that such payment of interest together with
 - (1) any additional Distributions that are simultaneously planned or made or that have been made by the Issuer on the Notes and other Tier 1 Instruments in the then current financial year of the Issuer and
 - (2) the total amount of write-ups (if any) in accordance with § 5(4)(b) of the Terms and Conditions of the Notes or in respect of other AT1 Instruments which shall be effected as of the relevant Interest Payment Date or have been effected in the then current financial year of the Issuer

would exceed the Available Distributable Items, provided that, for such purpose, the

Available Distributable Items shall be increased by (i) an amount equal to what has been accounted for as expenses for Distributions in respect of Tier 1 Instruments (including payments of interest on the Notes) in the determination of the profit (*Gewinn*) on which the Available Distributable Items are based, and (ii) any other amounts that may be included for the purposes of determining the amounts distributable on additional tier 1 instruments under capital regulations applicable to the Issuer from time to time;

- (b) if and to the extent that the competent authority orders that all or part of the relevant payment of interest be cancelled or another prohibition of Distributions is imposed by law or an authority or any other restriction to make Distributions exists under the Applicable Supervisory Regulations (including a prohibition of Distributions in connection with the calculation of the maximum distributable amount within the meaning of Article 141(2) of Directive 2013/36/EU as supplemented or amended from time to time (Capital Requirements Directive IV – "**CRD IV**") and as currently transposed into German law by § 10 (1) sentence 1 no. 5 e) KWG together with § 37 of the German Solvency Regulation (*Solvabilitätsverordnung – SolvV*) for the combined buffer requirements in accordance with § 10i KWG (the "**Maximum Distributable Amount**" or "**MDA**")); or
- (c) if the Issuer is over-indebted within the meaning of § 19 InsO or illiquid within the meaning of § 17 InsO on the relevant Interest Payment Date or to the extent that the relevant payment of interest would result in an over-indebtedness or illiquidity of the Issuer (see also "*Note on payment restrictions prior to an insolvency*" above).

"Applicable Supervisory Regulations" means the provisions of bank supervisory laws and any regulations and other rules thereunder applicable from time to time (including, but not limited to, the guidelines and recommendations of the European Banking Authority and/or the European Central Bank, the administrative practice of any competent authority, any applicable decision of a court and any applicable transitional provisions) relating to capital adequacy, solvency, other prudential requirements and/or resolution and applicable to the Issuer and/or the banking group to which the Issuer belongs from time to time.

"Available Distributable Items" means, with respect to any payment of interest, the distributable items as defined in Article 4(1) no. 128 CRR; at the time of the issuance of the Notes, such term refers to the profit as of the end of the financial year of the Issuer immediately preceding the relevant Interest Payment Date, for which audited unconsolidated annual financial statements are available, plus any profits brought forward and reserves available for that purpose, before distributions to holders of Own Funds Instruments, less any losses brought forward and any profits which are non-distributable pursuant to the applicable laws of the European Union or Germany or the articles of association of the Issuer and any sums placed in non-distributable reserves in accordance with the applicable laws of Germany or the articles of association of the Issuer, in each case with respect to the specific category of own funds of the Notes as AT1 Instruments to which the applicable laws of the European Union or Germany or the articles of associations of the Issuer relate, provided that the distributable items and the relevant profits, losses and reserves shall be determined on the basis of the unconsolidated annual financial statements of the Issuer prepared in accordance with German commercial law (and not on the basis of its consolidated financial statements, if any).

The determination of the Available Distributable Items shall be based on the Applicable Supervisory Regulations at the time of the determination and, accordingly, only those amounts shall be added or deducted that may be added or have to be deducted (as the case may be) for purposes of determining the amounts distributable on AT1 Instruments under the Applicable Supervisory Regulations.

"Distribution" means any kind of payment of dividends or interest.

"Tier 1 Instruments" means capital instruments which, according to the CRR, qualify as common equity tier 1 capital or additional tier 1 capital.

Interest Payments are non-cumulative

Interest Payments are non-cumulative. Consequently, Interest Payments in following years will not be increased to compensate for any shortfall in Interest Payments during a previous year and such shortfall shall not constitute an event of default under the terms and conditions of the Notes.

Termination Right of the

The Notes may be redeemed, in whole but not in part, subject to prior approval by the

Issuer

competent authority:

- (a) at the option of the Issuer on each Optional Redemption Date (cf. "*Optional Redemption Date*"), subject to any previous Write-down having been fully written-up;
- (b) at any time for regulatory reasons if there is a change in the regulatory classification of the Notes that would be likely to result in (i) their exclusion in full or in part from the Issuer's own funds under the CRR or (ii) a reclassification as a lower quality form of the Issuer's own funds since the issuance date, provided that the conditions in Article 78(4)(a) CRR are met, pursuant to which the competent authority may approve such redemption if (i) it considers the change in the regulatory classification to be sufficiently certain and (ii) the Issuer demonstrated to its satisfaction that the regulatory reclassification of the Notes was not reasonably foreseeable at the date of issuance;
- (c) at any time if the tax treatment of the Notes changes due to a change in applicable legislation, including a change in any fiscal or regulatory legislation, rules or practices, which takes effect after the Interest Commencement Date (including but not limited to the tax deductibility of interest payable on the Notes or the obligation to pay Additional Amounts (as defined below), provided that the conditions in Article 78(4)(b) CRR are met, pursuant to which the competent authority may approve such redemption if there is a change in the applicable tax treatment of the Notes which the Issuer demonstrated to its satisfaction is material and was not reasonably foreseeable at the date of issuance of the Notes. Any changes in the tax treatment of the Notes resulting in a withholding or deduction of taxes on amounts payable in respect of the Notes which, however, do not create an obligation of the Issuer to pay Additional Amounts (as defined below), will not constitute a reason to call the Notes for redemption pursuant to § 5(6) of the Terms and Conditions of the Notes.

In each case, any refusal of the competent authority to grant permission shall not constitute a default for any purpose.

The exclusion in full or in part from the own funds due to a write-down or a write-up (or refraining from a write-up) does not constitute a right to redeem the Notes for regulatory reasons.

If the Issuer elects, in its sole discretion and subject to prior approval by the competent authority, to redeem the Notes, the Notes will be repaid as a consequence thereof. In such case, the redemption amount per Note may be less than its Initial Nominal Amount due to a previous Write-down which has not been fully written-up (cf. "*Write-down of the Redemption Amount and the Nominal Amount of the Notes*").

Redemption Amount

"Redemption Amount" of each Note, unless previously redeemed in whole or in part or repurchased and cancelled, shall be the Prevailing Nominal Amount of such Note. In the event of a redemption after the commencement of insolvency or liquidation proceedings, the Redemption Amount of each Note shall be the Prevailing Nominal Amount at such time unless previously redeemed in whole or in part or repurchased and cancelled; the provision on subordination pursuant to § 2 of the Terms and Conditions of the Notes remains unaffected by this.

Write-down of the Redemption Amount and the Nominal Amount of the Notes

Upon the occurrence of a Trigger Event, the Prevailing Nominal Amount of the Notes shall be automatically reduced by the amount of the relevant Write-down. If and as long as the nominal amount of the Notes is below their Initial Nominal Amount, in case of a redemption of the Notes for regulatory or tax reasons, any repayment upon redemption of the Notes will be at the reduced nominal amount of the Notes and, with effect from the beginning of the interest period in which such Write-down occurs, any Interest Payment will be calculated on the basis of the reduced nominal amount of the Notes.

A "Trigger Event" occurs if, at any time, the common equity tier 1 capital ratio pursuant to Article 92(1)(a) CRR or any successor provision thereto, determined on a consolidated basis (the "**Common Equity Tier 1 Capital Ratio**") falls below 5.125 per cent. (the "**Minimum CET1 Ratio**"). Whether a Trigger Event has occurred shall be determined by the Issuer, the competent authority or any agent appointed for such purpose by the competent authority.

A Trigger Event may be determined at any time and may occur on more than one occasion.

Upon the occurrence of a Trigger Event, a write-down shall be effected *pro rata* with all of the Issuer's other AT1 Instruments the terms of which provide for a write-down (whether permanent or temporary) or a conversion into common equity tier 1 instruments upon the

occurrence of the Trigger Event. For such purpose, the total amount of the write-downs and conversions to be allocated *pro rata* shall be equal to the amount required to restore fully the Common Equity Tier 1 Capital Ratio of the Issuer to the Minimum CET1 Ratio but shall not exceed the sum of the nominal amounts of the relevant instruments outstanding at the time of occurrence of the Trigger Event.

The sum of the write-downs to be effected with respect to the Notes shall be limited to the aggregate Prevailing Nominal Amount of all Notes outstanding at the time of occurrence of the relevant Trigger Event.

If and to the extent that the write-down or conversion of any other AT1 Instrument of the Issuer is not effective for any reason, (i) the ineffectiveness of any such write-down or conversion shall not prejudice the requirement to effect a write-down of the Notes and (ii) the ineffective write-down or conversion shall not be taken into account in determining the write-down amount of the Notes.

Following a Write-down of the redemption amount and the nominal amount of the Notes in accordance with the Terms and Conditions of the Notes described above, the Issuer will be entitled (but not obliged) to effect, in its sole discretion, from annual profits (*Jahresüberschüsse*) in the future an increase of the redemption amount and the nominal amount of the Notes up to their Initial Nominal Amount, subject, however, to certain limitations set out in the Terms and Conditions of the Notes.

For more details, see § 5(4)(a) and (b) of the Terms and Conditions of the Notes.

Payment of Additional Amounts

If the Issuer is required to withhold or deduct at source amounts payable under the Notes on account of taxes in Germany, the Issuer will, subject to customary exemptions and to the extent this would not exceed Available Distributable Items, pay Additional Amounts (as defined in § 7(1) of the Terms and Conditions of the Notes) on the Notes to compensate for such deduction (but not, for the avoidance of doubt, with respect to the payment of any principal in respect of the Notes). See § 7 of the Terms and Conditions of the Notes.

Form of the Notes

The Notes are bearer notes (*Inhaberschuldverschreibungen*), each represented by one or more global notes without coupons or receipts.

Governing Law

The Notes are governed by German law.

Clearing System

The Notes have been accepted for clearing by Clearstream Banking AG, Mergenthalerallee 61, 65760 Eschborn, Federal Republic of Germany (the "**Clearing System**").

RISK FACTORS

Potential investors should carefully review and consider the risk factors (the "**Risk Factors**") set out below in the subsections "*Risk Factors in Respect of the Issuer*" and "*Risk Factors in Respect of the Notes*", the other information contained in this Prospectus or any supplement to this Prospectus (including any document incorporated by reference) and should read the detailed information set out elsewhere in this Prospectus and should consult with their own professional advisers (including their financial, accounting, legal and tax advisers) and reach their own views prior to making any investment decision.

The Issuer believes that the Risk Factors described below represent the specific risks inherent in investing in the Notes but the inability of the Issuer to pay principal, interest or other amounts or perform its obligations in connection with any Notes may occur or arise for other reasons and there may be other factors which are material to the risks associated with the Notes.

Risk Factors in Respect of the Issuer

The specific risks with regard to Deutsche Bank that may affect its ability to meet its obligations under the Notes are contained in the section "*Risk Factors*" set out on pages 3 to 37 of the Registration Document.

The information set out above is incorporated by reference in, and forms part of, this Prospectus (see the section "*Documents Incorporated by Reference*" in this Prospectus).

Risk Factors in Respect of the Notes

The Risk Factors relating to the Notes are presented according to their nature in the following five categories:

1. **Risks Relating to the Regulatory Classification of Notes;**
2. **Risks Relating to the Interest and Redemption Structure of the Notes;**
3. **Risks Relating to Certain Other Features of the Notes;**
4. **Risks Relating to the Taxation of the Notes; and**
5. **Other Related Risks.**

Within these five different categories, each individual Risk Factor has been indicated by a title (in ***bold italic font***). Where a Risk Factor may be categorised in more than one category, such Risk Factor appears only once and in the most relevant category for such Risk Factor. The most material risk in a category is presented first under that category. The assessment of materiality was based on the probability of occurrence and expected magnitude of negative impact. Subsequent Risk Factors in the same category are not ranked in order of materiality of occurrence.

1. **Risks Relating to the Regulatory Classification of Notes**

The redemption amount and the nominal amount of the Notes will be reduced under the Terms and Conditions of the Notes upon the occurrence of a Trigger Event, which may result in lower Interest Payments as well as lower payment of principal upon redemption of the Notes. If the redemption amount and the nominal amount of the Notes is reduced to zero, this may result in a full loss of the money invested in the Notes. Any indication that the Issuer's Common Equity Tier 1 Ratio is moving towards the level of a Trigger Event may have a significant adverse effect on the market price of the Notes.

Under the Terms and Conditions of the Notes, the nominal amount of the Notes is subject to a write-down ("**Write-down**") if the Issuer's common equity tier 1 capital ratio pursuant to Article 92(2)(a) of Regulation (EU) No. 575/2013, as supplemented or amended from time to time (Capital Requirements Regulation, "**CRR**"), determined on a consolidated basis (the "**Common Equity Tier 1 Capital Ratio**") falls below 5.125% (the "**Trigger Event**"). A Trigger Event may be determined at any time and may occur on more than one occasion. The occurrence of a Trigger Event and therefore a Write-down is inherently unpredictable and depends on a number of factors, any of which may be outside the control of the Issuer.

In case of a Write-down and with effect from the beginning of the interest period in which such Write-down occurs, Interest Payments will be calculated on the basis of the reduced nominal amount of the Notes and thus not accrue in full. In such event, Holders would receive no, or reduced, Interest Payments on the relevant Interest Payment Date.

"**Interest Payment Date**" means 30 April in each year.

"Interest Payments" means any payments of interest in respect of the Notes.

Upon the occurrence of a Trigger Event, a write-down shall be effected *pro rata* with all of the Issuer's other Additional Tier 1 instruments ("**AT1 Instruments**") within the meaning of the CRR the terms of which provide for a write-down (whether permanent or temporary) or a conversion into common equity tier 1 ("**CET1**") instruments upon the occurrence of the Trigger Event. For such purpose, the total amount of the write-downs and conversions to be allocated *pro rata* shall be equal to the amount required to restore fully the Common Equity Tier 1 Capital Ratio of the Issuer to the Minimum CET1 Ratio but shall not exceed the sum of the nominal amounts of the relevant instruments outstanding at the time of occurrence of the Trigger Event.

Such Write-down could also negatively affect the size of the redemption amount payable on the Notes as the Terms and Conditions of the Notes stipulate that the Issuer has the right to call the Notes for redemption for certain tax or regulatory reasons even if the redemption amount payable on the Notes has been and continues to be reduced due to such Write-down. The amount to be repaid under the Notes, if any, may thus be substantially lower than the initial nominal amount of the Notes, and may also be reduced to zero which would result in a full loss of all money invested in the Notes. In addition, any such Write-down will not constitute an event of default with respect to the Notes.

Therefore, as any event which could result in a Write-down of the redemption amount and the nominal amount of the Notes may adversely affect the market value of the Notes and reduce the liquidity of the Notes, the market price of the Notes is expected to be affected by changes in the Common Equity Tier 1 Capital Ratio of the Issuer. Such changes may be caused by changes in the amount of CET1 capital and/or risk weighted assets (each of which shall be calculated by the Issuer on a fully loaded and consolidated basis), as well as changes to their definition and interpretation under the applicable regulations. Any indication that the Common Equity Tier 1 Capital Ratio of the Issuer is moving towards the level of a Trigger Event may have an adverse effect on the market price of the Notes. A decline or perceived decline in the Common Equity Tier 1 Capital Ratio may significantly adversely affect the trading price of the Notes.

The Issuer's current and future outstanding junior instruments might not include write-down or similar features with triggers comparable to those of the Notes. As a result, it is possible that the Notes will be subject to a Write-down, while other junior instruments remain outstanding and continue to receive payments.

Following a Write-down of the redemption amount and the nominal amount in accordance with the Terms and Conditions of the Notes described above, the Issuer will, subject to certain limitations set out in the Terms and Conditions of the Notes, be entitled (but not obliged) to effect, in its sole discretion an increase of the redemption amount and thereby the nominal amount of the Notes up to their initial nominal amount (a "**Write-up**"). However, there can be no assurance that the Issuer will at any time have the ability and be willing to effect such Write-up.

The Notes may be written down (without prospect of a potential Write-up in accordance with the Terms and Conditions of the Notes) or converted into equity, and the terms of the Notes may be varied to the detriment of the Holders, by the competent authority.

In addition to being subject to a possible Write-down upon the occurrence of a Trigger Event in accordance with the Terms and Conditions of the Notes, the Notes may also be subject to a permanent write-down or conversion into ordinary shares or other instruments of ownership (in whole or in part) and/or to other resolution measures, in particular in circumstances where the competent authorities have determined that the Issuer has reached the point of non-viability and the competent resolution authority has taken the decision to apply these measures to the Issuer.

On 15 May 2014, the European Parliament and the Council of the European Union adopted Directive 2014/59/EU establishing a framework for the recovery and resolution of credit institutions and investment firms, as amended by Directive (EU) 2019/879 of the European Parliament and of the Council of 20 May 2019 amending Directive 2014/59/EU as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms and Directive 98/26/EC (the "**BRRD II**"), which was transposed into German law in the German Recovery and Resolution Act (*Sanierungs- und Abwicklungsgesetz* – "**SAG**"). For banks established in the eurozone, such as the Issuer, which are supervised within the framework of the Single Supervisory Mechanism (the "**SSM**"), Regulation (EU) No 806/2014, as amended by Regulation (EU) 2019/877 of the European Parliament and of the Council of 20 May 2019 amending Regulation (EU) No 806/2014 as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms (the "**SRM Regulation II**") provides for a coherent application of the resolution rules across the SSM under responsibility of the European Single Resolution Board (referred to as the "**Single Resolution Mechanism**" or the "**SRM**"). Under the SRM, the Single Resolution Board ("**SRB**") is responsible for adopting resolution decisions in close cooperation with the European Central Bank ("**ECB**"), the European Commission, and national resolution authorities in the event that a significant bank directly supervised by the ECB, such as the Issuer, is failing or likely to fail and certain other conditions are met. National resolution authorities in the European Union member states concerned would implement such resolution decisions adopted by the SRB in accordance with the powers conferred on them under national law transposing the BRRD II. Due to their expected qualification as AT1 Instruments, the Notes are 'relevant capital instruments' as defined in Article 3(1) no. 51 of SRM Regulation II and § 2(2) SAG which are intended to be recognised for the purposes of meeting own funds requirements of the Issuer on a consolidated basis. The Notes are therefore in particular subject to the 'write-down and conversion of capital instruments' tool as set out in Article 21 SRM Regulation II and § 89 SAG.

If the competent authority determines that the Issuer is failing or likely to fail and certain other conditions are met (as set forth in the SRM Regulation II, the SAG and other applicable rules and regulations), the competent resolution authority has the power

to write down, including to write down to zero, claims for payment of the principal, interest or any other amount in respect of the Notes, to convert the Notes into ordinary shares or other instruments qualifying as CET1 capital (the write-down and conversion powers are hereinafter referred to as the "**Bail-in tool**" or "**Regulatory Bail-in**"), or to apply any other resolution measure including (but not limited to) a transfer of the Notes to another entity, a variation of the Terms and Conditions of the Notes (including, but not limited to, the variation of maturity of the Notes) or a cancellation of the Notes. The Bail-in tool and each of these other resolution measures are hereinafter referred to as a "**Resolution Measure**". The competent resolution authority may apply Resolution Measures individually or in any combination.

The competent resolution authority will have to exercise the Bail-in tool in a way that results in (i) CET1 instruments (such as ordinary shares of the Issuer) being written down first in proportion to the relevant losses, (ii) subsequently, the principal amount of other capital instruments (AT1 Instruments and tier 2 instruments with the meaning of Article 63 CRR ("**Tier 2 Instruments**")) being written down on a permanent basis or converted into CET1 instruments within the meaning of the CRR in accordance with their order of priority, (iii) subsequently, the Issuer's unsecured and subordinated liabilities that are not AT1 Instruments or Tier 2 Instruments being written down on a permanent basis or converted into CET1 instruments, and (iv) finally, the Issuer's unsecured and unsubordinated liabilities (unless exempted by the SRM Regulation II, the BRRD II or the SAG) being written down on a permanent basis or converted into CET1 instruments within the meaning of the CRR in accordance with their order of priority under Section 46f(5) through (9) of the German Banking Act (*Kreditwesengesetz – "KWG"*).

The Holders of Notes are bound by any Resolution Measure. They would have no claim or any other right against the Issuer arising out of any Resolution Measure. Depending on the Resolution Measure, there would be no obligation of the Issuer to make payments under the Notes. The extent to which payment obligations under the Notes may be affected by Resolution Measures would depend on a number of factors that are outside the Issuer's control, and it will be difficult to predict when, if at all, Resolution Measures will occur. The exercise of any Resolution Measure would not constitute any right to accelerate or terminate the Notes. Potential investors should consider the risk that they may lose all of their investment, including the principal amount plus any accrued interest, if Resolution Measures are initiated, and should be aware that extraordinary public financial support for troubled banks, if any, would only potentially be used as a last resort after having assessed and exploited, to the maximum extent practicable, the Resolution Measures, including the Bail-in tool. If the power of write-down or conversion of relevant capital instruments or the Bail-in tool is applied to the Issuer, the principal amount of the Notes may be fully or partially written down or converted into instruments of ownership, although claims of other creditors of the Issuer might not be affected.

In addition, potential investors should note that the provisions of the Terms and Conditions of the Notes relating to a Write-up will not apply if the Notes have been subject to a Resolution Measure (cf. "*The Issuer is under no obligation to reinstate any written down amounts.*").

The obligations under the Notes are deeply subordinated obligations of the Issuer. There is a significant risk that Holders of Notes will lose all or some of their investment should the Issuer become insolvent or is liquidated. Irrespective of, and even prior to, the opening of insolvency proceedings against the Issuer, a prohibition on payments under the Notes may apply.

The Notes are intended to qualify as own funds instruments within the meaning of Article 4(1) no. 119 CRR ("**Own Funds Instruments**") in the form of AT1 Instruments as defined in Article 52 CRR or any successor provision thereof. In the event of resolution measures imposed on the Issuer and in the event of the dissolution, liquidation, insolvency, composition or other proceedings for the avoidance of insolvency of, or against, the Issuer, the obligations under the Notes shall rank:

- (A) junior to all obligations which do not qualify as Own Funds Instruments in the form of AT1 Instruments or CET1 instruments; this includes:
- (i) all claims of unsubordinated creditors of the Issuer (including claims against the Issuer under its unsubordinated non-preferred debt instruments within the meaning of § 46f(6) sentence 1 KWG (also in conjunction with § 46f(9) KWG) or any successor provision thereto),
 - (ii) the claims specified in § 39(1) nos. 1 to 5 of the German Insolvency Statute (*Insolvenzordnung – "InsO"*) or any successor provision thereto,
 - (iii) contractually subordinated obligations within the meaning of § 39(2) InsO or any successor provision thereof of the Issuer which do not qualify as Own Funds Instruments at the time of resolution measures being imposed on the Issuer or in the event of a dissolution, liquidation, insolvency, composition or other proceedings for the avoidance of insolvency of, or against, the Issuer,
 - (iv) the claims under Tier 2 Instruments of the Issuer, and
 - (v) all other obligations of the Issuer which pursuant to mandatory law (including pursuant to § 46f(7a) sentence 3 KWG or any successor provision thereto), have to be satisfied with priority to AT1 Instruments (the obligations of the Issuer referred to in (i) through (v) together, the "**Senior Ranking Obligations**"); and

(B) *pari passu* amongst:

- (i) themselves, and
- (ii) subject to applicable laws from time to time, with all other equally subordinated obligations of the Issuer constituting Own Funds Instruments in the form of AT1 Instruments, as well as
- (iii) subject to applicable laws from time to time, with the claims under the subordinated support undertakings entered into by the Issuer (the "**Support Undertakings**") in relation to the transactions of Deutsche Postbank Funding Trust I EUR 300,000,000 Registered Noncumulative Trust Preferred Securities (ISIN DE000A0DEN75), Deutsche Postbank Funding Trust II EUR 500,000,000 Registered Noncumulative Trust Preferred Securities (ISIN DE000A0DHUM0), and Deutsche Postbank Funding Trust III EUR 300,000,000 Registered Noncumulative Trust Preferred Securities (ISIN DE000A0D24Z1) (the aforementioned transactions, the "**Related Preferred Securities**").

Pursuant to § 46f(7a) KWG (implementing, among others, Article 48(7) BRRD II), the Notes rank, by operation of law, senior to the claims in respect of CET1 instruments of the Issuer.

From 1 January 2022, the capital raised through the Related Preferred Securities will no longer be recognized as additional tier 1 capital pursuant to transitional provisions of the CRR. As a consequence, the obligations of the Issuer under the Support Undertakings will no longer rank *pari passu* with the obligations of the Issuer under the Notes but, pursuant to the Terms and Conditions of the Notes and by operation of § 46f(7a) KWG, will rank senior to the obligations of the Issuer under the Notes and hence constitute Senior Ranking Obligations as from 1 January 2022.

In the event of resolution measures imposed on the Issuer and in the event of the dissolution, liquidation, insolvency, composition or other proceedings for the avoidance of insolvency of, or against, the Issuer, no amounts shall be payable in respect of the Notes until the Senior Ranking Obligations have been satisfied in full. Therefore, due to the deep subordination of the Notes, in any such event, there is a significant risk that a Holder of Notes will lose all or some of its investment.

Furthermore, the Holders will have limited ability to influence the outcome of any insolvency proceeding or a restructuring outside insolvency. In the course of insolvency proceedings over the assets of the Issuer, the Holders will not have any right to vote in the assembly of creditors (*Gläubigerversammlung*). Accordingly, the Holders may only affect the outcome of a restructuring to a very limited extent.

The provisions on subordination establish a payment prohibition to the effect that payments on the Notes may only be made by the Issuer at its sole discretion and may only be demanded by the Holders in accordance with this subordinated ranking provision; this includes payments in connection with a purchase of the Notes by the Issuer. In addition, irrespective of, and even prior to, the opening of any insolvency or liquidation proceedings over the assets of the Issuer, pursuant to the Terms and Conditions of the Notes the Issuer shall not make a scheduled payment of interest or principal if (i) the Issuer is over-indebted within the meaning of § 19 InsO or illiquid within the meaning of § 17 InsO on the date of the relevant payment, or (ii) the payment of the relevant amount would result in an over-indebtedness within the meaning of § 19 InsO or illiquidity within the meaning of § 17 InsO of the Issuer. Such a prohibition on payment may be in effect for an indefinite period of time and even permanently (cf. "*Interest Payments are entirely discretionary and subject to the fulfilment of certain conditions. If the Issuer elects to cancel an Interest Payment or is prevented from paying interest by law or under the Terms and Conditions of the Notes, for example due to a pre-insolvency restriction on Interest Payments, such deferral will be non-cumulative, i.e. the Issuer will be under no obligation to compensate for such non-payment at any later point in time. There will be no circumstances under which an Interest Payment will be compulsory for the Issuer.*").

Furthermore, no Holder may set off his claims arising under the Notes against any claims of the Issuer. As a result, a Holder that is also a debtor of the Issuer cannot set-off its payment obligations against any sum due but unpaid under the Notes. This waiver of set-off could therefore have an adverse effect on counterparty risk for a Holder in the event that the Issuer were to become insolvent.

Upon the occurrence of a Trigger Event, there may be a Write-down of the Notes even if other capital instruments of the Issuer are not written down or converted into CET1 instruments.

The terms and conditions of other instruments already in issue or to be issued by the Issuer after the date of this Prospectus may vary and accordingly such instruments may not be written down at the same time as the Notes if the Notes are written down, or to the same extent, as the Notes, or at all. Alternatively, such other instruments may provide that they shall convert into CET1 instruments, or become entitled to reinstatement of the principal amount of the Notes or other compensation in the event of a potential recovery of the Issuer and/or any other entity of the Deutsche Bank Group or a subsequent change in the financial condition thereof. Such capital instruments may also provide for such reinstatement or compensation in different circumstances from those in which, or to a different extent to which, the principal amount of the Notes may be reinstated.

The Issuer is under no obligation to reinstate any written down amounts.

The Issuer is under no obligation to reinstate any principal amounts which have been subject to any Write-down up to a maximum of the initial nominal amount, even if certain conditions (as further described in the Terms and Conditions of the Notes) that would permit the Issuer to do so, were met. Any write-up of the Notes is at the sole discretion of the Issuer.

The Issuer's ability to make a Write-up depends on the availability of an annual profit (*Jahresüberschuss*) as recorded on the basis of the unconsolidated annual financial statements of the Issuer prepared in accordance with German commercial law and is subject to a number of conditions set out in the Terms and Conditions of the Notes, including that the sum of the amounts of the write-ups of AT1 Instruments together with the amounts of any dividend payments and other Distributions on shares and other CET1 instruments of the Issuer (including payment of interests and other Distributions on AT1 Instruments that have been written down) for the relevant financial year must not exceed the Maximum Distributable Amount. However, there can be no assurance that the Issuer will at any time have the ability and be willing to effect such Write-up and Write-ups do not have priority over other payments and therefore the Issuer may make dividend payments and other payments of dividends and interest even if no Write-up has been effected. In case a Write-up is made, it will have to be effected on a *pro rata* basis with other Written-Down AT1 Instruments of the Issuer.

"Distribution" means any kind of payment of dividends or interest.

"Maximum Distributable Amount" means the maximum distributable amount within the meaning of Article 141(2) of Directive 2013/36/EU as supplemented or amended from time to time (Capital Requirements Directive IV – "CRD") ("Maximum Distributable Amount" or "MDA") and as currently transposed into German law by § 10 (1) sentence 1 no. 5 e) KWG together with § 37 of the German Solvency Regulation (*Solvabilitätsverordnung – SolvV*) for the combined buffer requirements in accordance with § 10i KWG.

No assurance can be given that the conditions for a Write-up will ever be met or that the Issuer will ever write up (fully or partially) the principal amount (i.e. the then-prevailing nominal amount) of the Notes following a Write-down. Furthermore, any write-up must be undertaken on a *pro rata* basis with all Notes and among any AT1 Instruments that have been written down.

The Issuer's consolidated Common Equity Tier 1 Capital Ratio and the maximum distributable amounts will be affected by a number of factors, any of which may be outside the control of the Issuer, as well as by its business decisions and, in making such decisions, the interests of the Issuer may not be aligned with those of the Holders.

The occurrence of a Trigger Event and therefore a Write-down is inherently unpredictable and depends on a number of factors, any of which may be outside the control of the Issuer. The calculation of the Issuer's Common Equity Tier 1 Capital Ratio and any maximum distributable amount (cf. *"Interest Payments may be excluded and cancelled for regulatory reasons, including if the Issuer fails to comply with minimum requirements for own funds, capital buffer requirements, additional supervisory capital requirements and requirements for own funds and eligible liabilities."* and *"The manner in which some aspects of the CRD/CRR and BRRD II/SRM Regulation II frameworks may be applied, including upon any future amendment, are uncertain. Ongoing and future legislative reforms may lead to additional restrictions with regard to Interest Payments on the Notes."*) could be affected by a wide range of factors, including, among other things, changes in the mix of Deutsche Bank Group's business, major events affecting its earnings, dividend payments by the Issuer, regulatory changes (including changes to the definitions and calculations of regulatory capital ratios and their components and the regulatory output floor contemplated by the so-called 'Basel IV' reforms, which set a floor in capital requirements calculated under internal models in terms of a percentage of the capital requirements that would result under the standardized approach) and Deutsche Bank Group's ability to manage risk-weighted assets. The Issuer will have no obligation to consider the interest of the Holders in connection with its strategic decisions, including in respect of capital management and the relationship among the various entities of Deutsche Bank Group and its group structure.

Because the occurrence of a Trigger Event will be difficult to predict, the trading behavior of the Notes may not necessarily follow the trading behavior of other types of subordinated securities. Any indication that the Group's Common Equity Tier 1 Capital Ratio is approaching the level that would trigger a Trigger Event (whether actual or perceived) may have an adverse effect on the trading price and liquidity of the Notes. Under such circumstances, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to more conventional investments. While the competent authority may require the Common Equity Tier 1 Capital Ratio to be calculated as of any date, a Trigger Event could occur at any time, if the Issuer determines that the Group's Common Equity Tier 1 Capital Ratio is less than 5.125%. The Issuer currently publicly reports the Group's Common Equity Tier 1 Capital Ratio only as of the end of each quarterly period, and therefore, during a quarterly period, there is no published updating of the Group's Common Equity Tier 1 Capital Ratio and there may be no prior warning of adverse changes in the Group's Common Equity Tier 1 Capital Ratio.

The Issuer may decide not to raise capital at a time when it is feasible to do so, even if that would result in the occurrence of a Trigger Event. Moreover, in order to avoid the use of public resources, the competent authority may decide that the Issuer should allow a Trigger Event to occur at a time when it is feasible to avoid it.

Holders will not have any claim against the Issuer and/or any other entity of the Group relating to decisions that affect the capital position of the Group, regardless of whether they result in the occurrence of a Trigger Event or a lack of Available

Distributable Items (as defined below) or any maximum distributable amount. Such decisions could cause Holders to lose all or part of the value of their investment in the Notes.

There is no negative pledge, covenant or other restriction on the amount or type of further instruments, including instruments that depend, amongst others, on the Issuer's Available Distributable Items, or other indebtedness that the Issuer may issue, incur or guarantee, including instruments that rank pari passu or senior to the Notes.

The Issuer has not entered into any restrictive covenants in connection with the Notes regarding its ability to dispose of its assets, issue or guarantee further instruments or other indebtedness ranking *pari passu* with or other indebtedness ranking senior to claims under the Notes. The disposal of assets or the issuance of further instruments which rank *pari passu* or senior to the Notes may reduce the amount recoverable by the Holders upon liquidation or winding-up of the Issuer.

The issuance of further indebtedness could limit the Issuer's ability to make payments of principal and interest under the Notes, in particular where payments of principal or interest on such other indebtedness reduces or must be made from the Issuer's Available Distributable Items (as defined below) as if the case for CET1 instruments and AT1 Instruments of the Issuer. The issuance of further AT1 Instruments which rank *pari passu* with the Notes may increase the risk that the Issuer must cancel Interest Payments on the Notes if it is subject to payment restrictions and applying maximum distributable amounts such as the Maximum Distributable Amount are insufficient (cf. "*Interest Payments may be excluded and cancelled for regulatory reasons, including if the Issuer fails to comply with minimum requirements for own funds, capital buffer requirements, additional supervisory capital requirements and requirements for own funds and eligible liabilities.*" and "*Interest Payments are entirely discretionary and subject to the fulfilment of certain conditions. If the Issuer elects to cancel an Interest Payment or is prevented from paying interest by law or under the Terms and Conditions of the Notes, for example due to a pre-insolvency restriction on Interest Payments, such deferral will be non-cumulative, i.e. the Issuer will be under no obligation to compensate for such non-payment at any later point in time. There will be no circumstances under which an Interest Payment will be compulsory for the Issuer.*").

As a result, the trading price of the Notes and the liquidity of the Notes on the secondary market may be materially and adversely affected and the Holders may lose all or part of their investment in the Notes.

2. Risks Relating to the Interest and Redemption Structure of the Notes

Interest Payments are entirely discretionary and subject to the fulfilment of certain conditions. If the Issuer elects to cancel an Interest Payment or is prevented from paying interest by law or under the Terms and Conditions of the Notes, for example due to a pre-insolvency restriction on Interest Payments, such deferral will be non-cumulative, i.e. the Issuer will be under no obligation to compensate for such non-payment at any later point in time. There will be no circumstances under which an Interest Payment will be compulsory for the Issuer.

The Notes accrue Interest Payments in accordance with the Terms and Conditions of the Notes. However, pursuant to the Terms and Conditions of the Notes, no Interest Payments will accrue or be payable by the Issuer on any Interest Payment Date if (but only to the extent that):

- (i) the Issuer, in its sole discretion, elects to cancel all or part of any payment of interest which would otherwise fall due for payment on such Interest Payment Date; or
- (ii) such payment of interest together with
 - (1) any additional Distributions that are simultaneously planned or made or that have been made by the Issuer on the Notes and other Tier 1 Instruments in the then current financial year of the Issuer, and
 - (2) the total amount of write-ups (if any) or in respect of other AT1 Instruments which shall be effected as of the relevant Interest Payment Date or have been effected in the then current financial year of the Issuer would exceed the Available Distributable Items, provided that, for such purpose, the Available Distributable Items shall be increased by (i) an amount equal to what has been accounted for as expenses for Distributions in respect of Tier 1 Instruments (including payments of interest on the Notes) in the determination of the profit (*Gewinn*) on which the Available Distributable Items are based, and (ii) any other amounts that may be included for the purposes of determining the amounts distributable on additional tier 1 instruments under capital regulations applicable to the Issuer from time to time;
- (iii) the competent authority orders that all or part of the relevant payment of interest be cancelled or another prohibition of Distributions is imposed by law or an authority or any other restriction to make Distributions exists under the Applicable Supervisory Regulations (including a prohibition of Distributions in connection with the calculation of the Maximum Distributable Amount) (cf. "*Interest Payments may be excluded and cancelled for regulatory reasons, including if the Issuer fails to comply with minimum requirements for own funds, capital buffer requirements, additional supervisory capital requirements and requirements for own funds and eligible liabilities.*" and "*The manner in which some aspects of*

the CRD/CRR and BRRD II/SRM Regulation II frameworks may be applied, including upon any future amendment, are uncertain. Ongoing and future legislative reforms may lead to additional restrictions with regard to Interest Payments on the Notes."); or

- (iv) the Issuer is over-indebted within the meaning of § 19 InsO or illiquid within the meaning of § 17 InsO on the relevant Interest Payment Date or to the extent that the relevant payment of interest would result in an over-indebtedness or illiquidity of the Issuer.

"Available Distributable Items" means, with respect to any payment of interest, the distributable items as defined in Article 4(1) no. 128 CRR; at the time of the issuance of the Notes, such term refers to the profit as of the end of the financial year of the Issuer immediately preceding the relevant Interest Payment Date, for which audited unconsolidated annual financial statements are available, plus any profits brought forward and reserves available for that purpose, before distributions to holders of Own Funds Instruments, less any losses brought forward and any profits which are non-distributable pursuant to the applicable laws of the European Union or Germany or the articles of association of the Issuer and any sums placed in non-distributable reserves in accordance with the applicable laws of Germany or the articles of association of the Issuer, in each case with respect to the specific category of own funds of the Notes as AT1 Instruments to which the applicable laws of the European Union or Germany or the articles of associations of the Issuer relate, provided that the distributable items and the relevant profits, losses and reserves shall be determined on the basis of the unconsolidated annual financial statements of the Issuer prepared in accordance with German commercial law (and not on the basis of its consolidated financial statements, if any).

"Applicable Supervisory Regulations" means the provisions of bank supervisory laws and any regulations and other rules thereunder applicable from time to time (including, but not limited to, the guidelines and recommendations of the European Banking Authority and/or the European Central Bank, the administrative practice of any competent authority, any applicable decision of a court and any applicable transitional provisions) relating to capital adequacy, solvency, other prudential requirements and/or resolution and applicable to the Issuer and/or the banking group to which the Issuer belongs from time to time.

The Issuer may elect to cancel the payment of any Interest Payment (in whole or in part) on any interest payment date for any reason. In addition, the Issuer will be legally prevented to pay interest (in whole or in part) if and to the extent any of the conditions set out under (ii) to (iv) above is fulfilled.

In the context of the COVID-19 pandemic, the ECB has issued a recommendation addressed to significant credit institutions, which should exercise extreme prudence and apply certain limits when deciding on or paying out dividends or performing share buy-backs aimed at remunerating shareholders (Recommendation of the European Central Bank of 15 December 2020, (ECB/2020/62) 2020/C 437/01. While this recommendation been repealed as of 30 September 2021 (see Recommendation of the European Central Bank of 23 July 2021 repealing Recommendation ECB/2020/62 (ECB/2021/31) (2021/C 303/01)), it cannot be ruled out that the ECB will make similar recommendations with regard to Interest Payments on AT1 Instruments such as the Notes or even require the Issuer to cancel Interest Payments under the Notes in case of the occurrence of a future comparable crisis situation with similar effects as the COVID-19 pandemic.

Prospective investors in the Notes should note that irrespective of, and even prior to, the opening of any insolvency or liquidation proceedings over the assets of the Issuer, the Issuer shall not make a scheduled payment of interest if the condition under point (iv) above is fulfilled. Such a prohibition on payment may be in effect for an indefinite period of time and even permanently. The same conditions apply to scheduled payments of principal (cf. *"The obligations under the Notes are deeply subordinated obligations of the Issuer. There is a significant risk that Holders of Notes will lose all or some of their investment should the Issuer become insolvent or is liquidated. Irrespective of, and even prior to, the opening of insolvency proceedings against the Issuer, a prohibition on payments under the Notes may apply."*).

No such election to cancel the payment of any Interest Payment (or part thereof) or non-payment of any Interest Payment (or part thereof) for the reasons set out under (i) to (iv) above will constitute a default under the Notes for any purpose (cf. *"The Notes have no scheduled maturity and the Terms and Conditions of the Notes neither provide for events of default allowing acceleration or termination nor for a redemption option at the discretion of a Holder. Even if the Issuer exercises a right to redeem the Notes, it may be prohibited to pay any scheduled amount of principal if a Trigger Event is continuing or pre-insolvency restrictions on payments of principal apply."*).

If due to any of the reasons set out above Interest Payments do not accrue and are not paid on any Interest Payment Date, such Interest Payments will not be paid at any later point of time (non-cumulative). Accordingly, Interest Amounts on following Interest Payment Dates will not be increased to compensate for any shortfalls in Interest Payments on any previous Interest Payment Date.

Furthermore, if the Issuer exercises its discretion to cancel Interest Payments on the Notes with respect to any Interest Payment Date, this will not give rise to any restriction on the Issuer making dividend payments or other distributions or any other payments to the holders of any other instruments, including instruments ranking *pari passu* with, or junior to, the Notes, and the Issuer is entitled to use the funds from cancelled payments of interest without restrictions for the fulfillment of its own obligations when due.

Investors should be aware that there will be no circumstances under which an Interest Payment will be compulsory for the Issuer.

Certain market expectations may exist among investors in the Notes with regard to Deutsche Bank making Interest Payments. Should the Issuer's actions diverge from such expectations or should the Issuer be prevented from meeting such expectations for regulatory reasons, any such event which could result in an Interest Payment not being made or not being made in full may adversely affect the market value of the Notes and reduce the liquidity of the Notes.

Interest Payments may be excluded and cancelled for regulatory reasons, including if the Issuer fails to comply with minimum requirements for own funds, capital buffer requirements, additional supervisory capital requirements and requirements for own funds and eligible liabilities.

Under the Applicable Supervisory Regulations, certain regulatory requirements apply to the Issuer to hold regulatory capital, the violation of which may lead to a prohibition or restriction of Interest Payments under statutory law or by virtue of a decision of a competent authority of the Issuer. Such regulatory capital requirements include:

- The CRR requires the Issuer to meet at all times, on a consolidated basis, a minimum amount of total own funds of 8% of the risk-weighted assets and also imposes minimum requirements for tier 1 ("**Tier 1**") capital of 6% of risk-weighted assets and CET1 capital of 4.5% of risk-weighted assets (so-called "Pillar 1" requirement).
- In addition to the Pillar 1 requirements, and on the basis of the annual supervisory review and evaluation process ("**SREP**"), the ECB has imposed on the Issuer additional individual capital requirements referred to as "Pillar 2" requirements which must be fulfilled with 2.5% own funds, consisting of at least 1.88% Tier 1 capital and within that minimum Tier 1 capital requirement at least 1.41% CET1 capital. Consequently, Deutsche Bank may satisfy the Pillar 2 requirements with portions of 1.41% CET1 capital, 0.47% additional tier 1 ("**AT1**") capital and 0.63% tier 2 ("**Tier 2**") capital. Furthermore, certain capital buffer requirements apply under the German implementation of CRD, which the Issuer must meet with CET1 capital.
- The CRD also introduced capital buffer requirements that must be met in addition to both the minimum capital requirements set forth in the CRR and the Pillar 2 requirements set by the ECB as a result of the annual SREP. The capital buffer requirements must be met with CET1 capital and consist of five capital buffer requirements: (i) the capital conservation buffer, (ii) the institution-specific counter-cyclical buffer (calculated as the weighted average of counter-cyclical buffers that apply in the jurisdictions where Deutsche Bank's relevant credit exposures are located), (iii) the global systemically important institutions buffer (G-SII buffer) or, depending on the institution, the other systemically important institution buffer (O-SII buffer), whereby the higher buffer requirement applies, and (iv) the systemic risk buffer. Insofar as these buffers are not set out in statutory law, the German Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht* – "**BaFin**") as national competent or designated authority is competent to set the buffer rates applicable to the Issuer. In accordance with Article 5(2) SSM Regulation, the ECB may, if deemed necessary, set higher buffer rates than those applied by BaFin.

As of 30 September 2021, Deutsche Bank needs to maintain on a consolidated basis a Common Equity Tier 1 Capital Ratio of at least 10.43%. The CET1 capital requirement comprises the Pillar 1 minimum capital requirement of 4.50%, the Pillar 2 requirement of 1.41%, the capital conservation buffer of 2.50%, the countercyclical buffer (subject to changes throughout the year) of 0.02% and the higher of the G-SII/O-SII buffer of 2.00% applicable to Deutsche Bank.

If the Issuer fails to meet the combined buffer requirement, which is the case if the Issuer does not have sufficient own funds (of the required qualities, as applicable) in an amount needed to meet at the same time (a) its Pillar 1 requirements, (b) any additional capital requirements, such as the "Pillar 2" requirements imposed on the Issuer by the ECB on the basis of the annual SREP, and (c) the sum of the capital buffers applicable to it, the Issuer will be required to calculate the Maximum Distributable Amount. Until approval of a capital conservation plan, the Issuer will be prohibited from making any Interest Payments on the Notes. Upon approval of the capital conservation plan or upon specific approval of BaFin to do so, the Issuer will be entitled to make Interest Payments on the Notes, however only up to the amount of its Maximum Distributable Amount. As a consequence, in the event of breach of the combined buffer requirement it may be necessary to reduce discretionary payments, including potentially exercising the Issuer's discretion to cancel (in whole or in part) Interest Payments in respect of the Notes.

The Common Equity Tier 1 Capital Ratio of at least 10.43% as of 30 September 2021 sets the level below which Deutsche Bank Group would be required to calculate the Maximum Distributable Amount. As of 30 September 2021, Deutsche Bank Group's Common Equity Tier 1 Capital Ratio was 13.01% (calculated on the basis of Common Equity Tier 1 capital of € 45,633 million and risk-weighted assets of € 350,733 million as of 30 September 2021), resulting in a distance of 258 basis points (or € 9.049 billion Common Equity Tier 1 capital as of 30 September 2021) to the minimum Common Equity Tier 1 Capital Ratio below which a calculation of the Maximum Distributable Amount would be required.

Moreover, payments made earlier in the relevant period will reduce the remaining Maximum Distributable Amount available for payments later in the relevant period, and the Issuer will have no obligation to preserve any portion of the Maximum Distributable Amount for payments scheduled to be made later in a given period. Even if the Issuer attempts to do so, there

can be no assurance that it will be successful, because the Maximum Distributable Amount will depend, among other things, on the amount of profits earned during the course of the relevant period, which will be difficult to predict.

In addition and under certain conditions, the ECB may restrict or prohibit all or part of the Interest Payments as set forth in Article 16 (1) in connection with (2) point (i) SSM Regulation. In particular, pursuant to Article 16 (2) point (i) SSM Regulation, the ECB has the power to restrict or prohibit distributions by the credit institution to shareholders, members or holders of AT1 Instruments where the prohibition does not constitute an event of default of the institution. Relevant circumstances where the ECB may restrict or prohibit the Issuer from making any Interest Payment exist, for example, if the Issuer does not meet the minimum own funds requirements set forth in the CRR or any additional capital requirements ordered by the ECB, such as the Pillar 2 requirements set by the ECB as a result of the annual SREP.

The minimum requirements for own funds and eligible liabilities ("**MREL**") framework under the SRM Regulation II and BRRD II confers certain supervisory powers to the SRB under SRM Regulation II and to BaFin under the SAG, implementing BRRD II in Germany, which allow the competent authority to, for example, prohibit payments on AT1 Instruments. Subject to the requirements under the SRM Regulation II, the SRB may impose upon the Issuer a prohibition under which it would be prohibited to distribute more than the 'maximum distributable amount related to the minimum requirement for own funds and eligible liabilities' ("**M-MDA**"). The prohibition under the M-MDA may be imposed if the Issuer meets the combined buffer requirement, but fails to meet the combined buffer requirement when considered in addition to the MREL requirements, and the competent authority shall exercise its power in case it finds that the Issuer still fails to meet such requirement nine months after such situation has been notified. Unlike under the Maximum Distributable Amount framework of the CRD, the M-MDA is not triggered automatically in the first nine-month period following notification of the failure to meet such requirement, but rather may only be imposed by the SRB in its discretion.

In the future, under the CRD/CRR framework, additional restrictions on Interest Payments may be imposed on the Issuer in case it fails to comply with minimum leverage ratio requirements (cf. "*The manner in which some aspects of the CRD/CRR and BRRD II/SRM Regulation II frameworks may be applied, including upon any future amendment, are uncertain. Ongoing and future legislative reforms may lead to additional restrictions with regard to Interest Payments on the Notes.*").

Accordingly, even if the Issuer was intrinsically profitable and willing to make Interest Payments, it could be prevented from doing so by regulatory provisions and/or regulatory action. Any cancellation of an Interest Amount or the perception that the Issuer will need to cancel an Interest Amount to comply with prohibitions and restrictions applicable to interest payments on the Notes could have a significant adverse effect on the trading price of the Notes and would negatively impact Holders' returns. In addition, as a result of the interest cancellation provisions, the trading price of the Notes may be more volatile than the trading prices of other interest bearing debt securities that are not subject to such prohibitions or restrictions. As a result, the trading price of the Notes may be more sensitive generally to adverse changes in the Issuer's financial condition than such other securities and Holders may receive less interest than initially anticipated.

The Issuer's ability to make Interest Payments depends, among other things, on the Issuer's Available Distributable Items, which, on any or all Interest Payment Dates, may not be sufficient.

Interest Payments under the Notes depend, among other things, on the future Available Distributable Items of the Issuer. Interest Payments will not accrue if (but only to the extent that) such payment, together with any other Distributions that are scheduled to be made or have been made on the same day by the Issuer on other Tier 1 Instruments in the then current financial year, would exceed Available Distributable Items, provided, however, that for purposes of this determination the Available Distributable Items shall be increased by an amount equal to the aggregate expense accounted for in respect of Distributions on Tier 1 Instruments (including the Notes) when determining the profit which forms the basis of the Available Distributable Items (cf. "*Interest Payments are entirely discretionary and subject to the fulfilment of certain conditions. If the Issuer elects to cancel an Interest Payment or is prevented from paying interest by law or under the Terms and Conditions of the Notes, for example due to a pre-insolvency restriction on Interest Payments, such deferral will be non-cumulative, i.e. the Issuer will be under no obligation to compensate for such non-payment at any later point in time. There will be no circumstances under which an Interest Payment will be compulsory for the Issuer.*"). In such event, Holders would receive no, or reduced, Interest Payments on the relevant Interest Payment Date. With the annual profit (*Jahresüberschuss*) and any distributable reserves of Deutsche Bank forming an essential part of the Available Distributable Items, investors should also carefully review any risk factors applicable to Deutsche Bank as set forth in the section "*Risk Factors*" set out on pages 3 to 37 of the Registration Document, which is incorporated by reference in, and forms part of, this Prospectus, since any change in the financial prospects of the Issuer or its inherent profitability, in particular a reduction in the amount of profit and/or distributable reserves on an unconsolidated basis, may have an adverse effect on the Issuer's ability to make a payment in respect of the Notes.

In addition, when determining whether Interest Payments under the Notes will or will not accrue, the Available Distributable Items shall be determined on the basis of the Applicable Supervisory Regulations at the time of the determination. Accordingly, only those amounts shall be added or deducted that may be added or have to be deducted (as the case may be) for purposes of determining the amounts distributable on AT1 Instruments under the Applicable Supervisory Regulations. In this context, it should be noted that the definition of 'distributable items' in Article 4(1) no. 128 of the CRR has recently been amended. The interpretation of the amended definition of 'distributable items' and its exact scope are, in the absence of an established supervisory practice, difficult to predict and there can be no assurance that the Issuer may in practice be permitted to calculate the Available Distributable Items for the purpose of distributions under the Notes as currently assumed by the Issuer. Hence, no assurance can be made as to, and investors should not rely on, the availability of the capital reserve and the amounts

blocked for distributions under § 268(8) or § 253(6) of the German Commercial Code (*Handelsgesetzbuch – HGB*) or any other amounts for increasing the Available Distributable Items in the future when determining whether Interest Payments will or will not accrue in light of the Available Distributable Items at that time.

The Issuer's management has broad discretion within the applicable accounting principles to influence the amounts relevant for determining the Available Distributable Items and the amount of the Distributions will also be in the Issuer's discretion. In addition, the Issuer is not prevented from issuing further Tier 1 Instruments with interest payments and other distributions potentially being made thereunder also prior to the Interest Payment Date under the Notes in any financial year. This would reduce the Available Distributable Items available for making interest payments under the Notes on any Interest Payment Date (cf. "*There is no negative pledge, covenant or other restriction on the amount or type of further instruments, including instruments that depend, amongst others, on the Issuer's Available Distributable Items, or other indebtedness that the Issuer may issue, incur or guarantee, including instruments that rank pari passu or senior to the Notes.*"). Accordingly, the Issuer is legally capable of influencing its ability to make Interest Payments to the detriment of the Holders.

The Notes have no scheduled maturity and the Terms and Conditions of the Notes neither provide for events of default allowing acceleration or termination nor for a redemption option at the discretion of a Holder. Even if the Issuer exercises a right to redeem the Notes, it may be prohibited to pay any scheduled amount of principal if a Trigger Event is continuing or pre-insolvency restrictions on payments of principal apply.

The Notes have no scheduled maturity and may run for an indefinite period. The Holders have no right to require the Issuer to redeem their Notes at any time. Except for certain tax or regulatory reasons, as described in this Prospectus, the Terms and Conditions of the Notes provide that the Issuer has no right to call the Notes for redemption other than with effect as of each business day during the period from 30 November 2026 (inclusive) to 30 April 2027 (inclusive) (the "**First Reset Date**") and after the First Reset Date, on each Business Day falling in a period from 30 October (inclusive) immediately before each Interest Payment Date to such Interest Payment Date (inclusive) (each such day, an "**Optional Redemption Date**"). In addition, the Terms and Conditions of the Notes stipulate that no termination shall become effective without prior approval of the competent authority and in accordance with the Terms and Conditions of the Notes. Moreover, the Issuer may exercise any right under the Terms and Conditions of the Notes to redeem the Notes in his sole discretion. Accordingly, the Issuer is under no obligation to repay all or any part of the nominal amount of the Notes at a certain point in time.

Prospective investors should further note that the Terms and Conditions of the Notes specify that the Issuer must indicate his intention to redeem the Notes to the Holders in a non-legally binding manner not later than 30 days prior to the date fixed for redemption but that the Issuer will be prevented to make a firm redemption notice and redeem the Notes at their redemption amount on the date fixed for redemption if on such date: (i) a Trigger Event has occurred is continuing, (ii) the Issuer is either over-indebted within the meaning of § 19 InsO or illiquid within the meaning of § 17 InsO on the date fixed for redemption and (iii) the payment of the redemption amount results in an over-indebtedness within the meaning of § 19 InsO or illiquidity within the meaning of § 17 InsO of the Issuer. Such a prohibition on payment may be in effect for an indefinite period of time and even permanently. Similar pre-insolvency restrictions apply to Interest Payments (cf. "*Interest Payments are entirely discretionary and subject to the fulfilment of certain conditions. If the Issuer elects to cancel an Interest Payment or is prevented from paying interest by law or under the Terms and Conditions of the Notes, for example due to a pre-insolvency restriction on Interest Payments, such deferral will be non-cumulative, i.e. the Issuer will be under no obligation to compensate for such non-payment at any later point in time. There will be no circumstances under which an Interest Payment will be compulsory for the Issuer.*").

The Terms and Conditions of the Notes do not provide for any events of default that would allow the Holders to accelerate or terminate the Notes, including if the Issuer is prohibited from redeeming the Notes on the date fixed for redemption in one of the aforementioned events. In addition, neither a Write-down, non-viability nor a regulatory bail-in in connection therewith will constitute an event of default with respect to the Notes (cf. "*The redemption amount and the nominal amount of the Notes will be reduced under the Terms and Conditions of the Notes upon the occurrence of a Trigger Event, which may result in lower Interest Payments as well as lower payment of principal upon redemption of the Notes. If the redemption amount and the nominal amount of the Notes is reduced to zero, this may result in a full loss of the money invested in the Notes.*" and "*The Notes may be written down (without prospect of a potential Write-up in accordance with the Terms and Conditions of the Notes) or converted into equity, and the terms of the Notes may be varied to the detriment of the Holders, by the competent authority.*"). Accordingly, if the Issuer fails to meet obligations under the Notes, including the payment of interest which has not been cancelled, Holders will not have the right of acceleration of principal. The only remedy against the Issuer available to Holders for recovery of amounts which have become due in respect of the Notes will be the institution of legal proceedings to enforce payment of the amounts. In particular, as solely BaFin is entitled to file an application for the institution of insolvency proceedings in respect of the Issuer, Holders would not be able to file for the institution of insolvency proceedings with a view to recover such amounts.

Certain market expectations may exist among investors in the Notes with regard to Deutsche Bank making use of a right to call the Notes for redemption. Should the Issuer's actions diverge from such expectations or should the Issuer be prevented from meeting such expectations for regulatory reasons, the market value of the Notes could be adversely affected and the liquidity of the Notes could be reduced.

Therefore, Holders should be aware that they may be required to bear the financial risks of an investment in the Notes for an indefinite period of time.

The Notes may be redeemed solely at the Issuer's option (subject to the prior approval of the competent authority), which may result in a lower yield than expected, and if the Notes are redeemed due to certain regulatory or tax reasons, the redemption amount may be substantially lower than the initial nominal amount of the Notes due to a Write-down that has not been fully written up. In case of a Write-down to zero, this may result in a full loss of the Holder's investment.

Subject to the prior permission of the competent authority, the Notes may be redeemed at the sole option of the Issuer (in whole but not in part) in the following circumstances and in each case subject to the competent authority's permission pursuant to Article 78 CRR (provided that if, at the time of any redemption or purchase, the Applicable Supervisory Regulations permit the redemption or purchase only after compliance with one or more alternative or additional pre-conditions to those set out in Article 78 CRR, the Issuer shall comply with such other and/or, as applicable, additional pre-conditions, if any):

- the Issuer may redeem the Notes on each Optional Redemption Date at his discretion, subject to the competent authority's permission pursuant to Article 78 CRR, but only if any reductions of the nominal amount of the Notes due to a Write-down in accordance with the Terms and Conditions of the Notes have been fully compensated by a Write-up (but no Write-up is required if the Notes have been written-down due to the application of a Resolution Measure);
- at any time if there is a change in the regulatory classification of the Notes that would be likely to result in (i) their exclusion in full or in part from the Issuer's own funds under the CRR or any successor legislation, or (ii) their reclassification as a lower quality form of the Issuer's own funds as of the Issue Date, provided that the conditions in Article 78(4) point (a) CRR are met; or
- at any time if the tax treatment of the Notes changes due to a change in applicable legislation, including a change in any fiscal or regulatory legislation, rules or practices, which takes effect after the Issue Date (including but not limited to the tax deductibility of interest payable on the Notes or the obligation to pay Additional Amounts (as defined below), provided that the conditions in Article 78(4) point (b) CRR are met. In the event that the relevant change in the tax treatment of the Notes results in a withholding or deduction of taxes on amounts payable in respect of the Notes, the Issuer will be entitled to redeem the Notes only if this results in an obligation of the Issuer to pay Additional Amounts (as defined below).

In addition, permission to redeem the Notes for regulatory reasons or reasons of taxation prior to the fifth anniversary of the issuance of the Notes as of the date of this Prospectus requires that either of the following conditions is met pursuant to Article 78(1), (4) CRR: (i) before or at the same time as the redemption, the Issuer replaces the Notes with own fund instruments of equal or higher quality at terms that are sustainable for the income capacity of the Issuer; or (ii) the Issuer has demonstrated to the satisfaction of the competent authority that the own funds and eligible liabilities of the Issuer would, following such redemption, exceed the requirements laid down in the Applicable Supervisory Regulations by a margin that the competent authority considers necessary. If the Issuer elects, in its sole discretion and subject to prior approval by the competent authority, to redeem the Notes, the Notes will be repaid as a consequence thereof. The optional redemption feature is likely to limit the market value of Notes. During any period when the Issuer may elect to redeem the Notes, the market value of those Notes generally will not rise substantially above the price at which they may be redeemed. This may also be the case prior to any redemption period or date.

If the Issuer calls the Notes for redemption for regulatory or tax reasons and a written-down amount has not been fully written up, the redemption amount of the Notes, if any, may be substantially lower than the initial nominal amount of the Notes, and may also be reduced to zero which would result in a full loss of all money invested in the Notes.

In the event of a redemption of the Notes, the Holders are exposed to the risk that their investment has a lower yield than expected. In addition, the Holders are exposed to risks connected with any reinvestment of the cash proceeds received as a result of the redemption. Therefore, the Holders are exposed to reinvestment risk if market interest rates decline. This means that Holders might reinvest the redemption proceeds only at the then prevailing lower interest rates.

The manner in which some aspects of the CRD/CRR and BRRD II/SRM Regulation II frameworks may be applied, including upon any future amendment, are uncertain. Ongoing and future legislative reforms may lead to additional restrictions with regard to Interest Payments on the Notes.

Financial institutions, such as Deutsche Bank, have been, and are expected to be in the future, subject to extensive regulation and it is possible that regulatory reforms may affect the treatment of the Notes.

The CRD/CRR framework after its revision by the banking reform package in 2019 introduces a new potential restriction on distributions in case an institution qualifying as a G-SIB, such as the Issuer, fails to meet a newly introduced leverage ratio requirement with sufficient Tier 1 capital. In such case, the institution would have to calculate the so-called 'leverage ratio related maximum distributable amount' ("**L-MDA**") in accordance with the German implementation of Article 141b CRD, which will become effective on 1 January 2023 and may limit distributions on capital instruments, which includes Interest Payments

on the Notes. An institution will be considered failing the leverage ratio buffer requirement where it does not have Tier 1 capital in the amount needed to meet at the same time the minimum leverage ratio requirement, the leverage ratio buffer requirement and any additional requirements imposed on the institution to address excessive leverage not sufficiently covered by the leverage ratio buffer requirement. The non-risk based leverage ratio is intended to act as a supplementary measure to the risk based capital requirements. Effective since 28 June 2021, the Issuer must maintain a minimum leverage ratio requirement of 3%. From 1 January 2023 an additional leverage ratio buffer requirement of 50% of the applicable G-SIB buffer rate will apply. It is currently expected that this additional requirement will equal 0.75% for the Issuer. Once fully in force and implemented, the leverage ratio framework as well as other legislative reforms in the future may impose or result in further restrictions on the Issuer's ability to make payments on the Notes or may limit the reinstatement of the nominal amount of the Notes following a Write-down, which may in turn adversely impact the trading price and the liquidity of the Notes.

Furthermore, many of the provisions of the Terms and Conditions of the Notes depend on the final interpretation or even implementation of the CRD/CRR but also the BRRD II/SRM Regulation II framework (including any regulations promulgated thereunder). The CRD/CRR and BRRD II/SRM Regulation II frameworks are complex sets of rules and regulations that impose a series of requirements, some of which are still subject to transitional provisions and others which will be amended in the near future. Although CRR and SRM Regulation II are directly applicable in each EU Member State, they provide for important interpretational issues to be further specified through binding technical standards and/or delegated legal acts and through guidelines and leave certain other matters to the discretion of the competent authority. In addition, Deutsche Bank Group is subject to direct supervision of the ECB and the SRB. The manner in which many of the concepts and requirements under the CRD/CRR and BRRD II/SRM Regulation II frameworks are applied to Deutsche Bank Group remains somewhat uncertain.

In particular, the interplay between the SREP requirements and the Maximum Distributable Amount, M-MDA and future L-MDA as well as the determination of these maximum distributable amounts are complex. The maximum distributable amounts impose caps on the Issuer's ability to make discretionary payments including Interest Payments on the Notes, on the Issuer's ability to reinstate the prevailing nominal amount of the Notes following a Write-down and on its ability to redeem or repurchase Notes. There are a number of factors for the complexity of the determination of the maximum distributable amounts, including the following:

- The Maximum Distributable Amount framework under CRD/CRR applies when certain capital buffers are not maintained. Certain capital buffers depend and will depend on the macro-economic situation (in the case of the (institution-specific) countercyclical buffer: the credit cycle and risks due to excess credit growth in an EU Member State, taking into account specificities of the national economy), the existence of systemic risks (in the case of the systemic risk buffer) or because of the assessment of a credit institution/its group as a G-SIB or other systemically important institution (O-SII) (in the case of the G-SIB buffer and the O-SII buffer). The buffer requirements are set by the competent authorities and are subject to change over time. As a result, it is difficult to predict when or if the Maximum Distributable Amount will apply to the Notes, and to what extent.
- In addition, any increase in the applicable requirements, for instance as a result of the imposition by supervisors of additional capital or MREL requirements (due to stricter legislation, any imposition or increase of capital buffers or any increase in the Pillar 2 requirement or MREL applicable to the Issuer) increases the likelihood of the Issuer not being permitted to make Interest Payments in full or in part or any other amount falling due under the Notes due to the operation of the Maximum Distributable Amount or M-MDA under the BRRD II/SRM Regulation II framework. Holders may not be able to predict accurately the proximity of the risk of discretionary payments (of interest and principal) on the Notes being prohibited from time to time as a result of the operation of Article 141(2) CRD or other provisions of the Applicable Supervisory Rules relating to other limitations on distributions or payments.
- Such uncertainty and complexity has been increased by the recent implementation of the leverage ratio framework under CRD/CRR. These additional requirements may impact the Issuer's ability to meet its capital and leverage buffer requirement, which in turn, might impact its ability to make payments on the Notes (which could affect the trading price of the Notes).

In any event, the Issuer will have discretion as to how the Maximum Distributable Amount will be applied if insufficient to meet all expected distributions and payments and, in this respect, is not obliged to take the interest of the Holders into account.

These issues, increased complexity and interplay of different minimum capital requirements and maximum distributable amounts and other possible issues of interpretation make it difficult to determine how the Maximum Distributable Amount, the M-MDA and the L-MDA will apply as a practical matter to limit Interest Payments on the Notes, the reinstatement of the nominal amount of the Notes following a Write-down and the ability of the Issuer to redeem or repurchase Notes. This uncertainty and the resulting complexity may adversely impact the trading price and the liquidity of the Notes.

Interest Payments are linked to a benchmark and are therefore exposed to the risks of financial benchmarks and reference rate continuity; a discontinuity of the original benchmark (including a material alteration of the methodology for its calculation) could lead to a material change of the amount of Interest Payments under the Notes and result in a decline of yield due to fall-back provisions.

On each "**Reset Date**" (being 30 April 2027 and any fifth anniversary of the immediately preceding Reset Date) the rate of interest payable under the Notes will reset and be calculated by reference to the 5-year swap rate for euro swap transactions, expressed as an annual rate (the "**5-year swap rate**"), as displayed on the Reuters screen "ICESWAP2" under the heading "EURIBOR BASIS – EUR" (as such headings may appear from time to time) (the "**Screen Page**") on the relevant determination date. The 5-year swap rate qualifies as a benchmark for the purpose of Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 ("**Benchmarks Regulation**") and is administered and provided by ICE Benchmark Administration Limited (the "**Administrator**"). Interest rates and indices or other figures which are deemed to be "benchmarks" (including the 5-year swap rate) are the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented. These reforms may cause the 5-year swap rate to perform differently than in the past, to disappear entirely, or to have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on the Notes. Among other things, the Benchmarks Regulation (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by EU supervised entities (such as the Issuer) of benchmarks of administrators that are not authorised or registered (or, if non-EU based, not deemed equivalent or recognised or endorsed), unless such benchmark administrators are exempt from the application of the Benchmarks Regulation, such as, for example, central banks and certain public authorities. As at the date of this Prospectus, the Administrator does not appear on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority ("**ESMA**") pursuant to Article 36 of the Benchmarks Regulation. As far as the Issuer is aware, the transitional provisions in Article 51 of the Benchmarks Regulation apply, such that the Administrator is not currently required to obtain authorisation or registration (or, if located outside the European Union, recognition, endorsement or equivalence).

The Benchmarks Regulation could have a material impact on the Notes, in particular, if:

- the Administrator does not obtain recognition, endorsement or equivalence after lapse of the applying transitional period under Article 51 of the Benchmarks Regulation;
- the methodology or other terms of the 5-year swap rate are changed in order to comply with the requirements of the Benchmarks Regulation. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the 5-year swap rate and could impact the Note, including determination of the relevant reference rate by the calculation agent or an independent advisor.

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of benchmarks, could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements.

It is not possible to predict with certainty whether, and to what extent, benchmarks (including EURIBOR, which underlies the 5-year swap rate) will continue to be supported going forwards. This may cause benchmarks to perform differently than they have done in the past, and may have other consequences which cannot be predicted. Any of the above factors may have (without limitation) the following effects on certain benchmarks: (i) discourage market participants from continuing to administer or contribute to a benchmark; (ii) trigger changes in the rules or methodologies used in the benchmark and/or (iii) lead to the disappearance of the benchmark. Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of, and return on, the Notes.

If the Issuer determines that a Rate Replacement Event has occurred in respect of the 5-year swap rate on or prior to a determination date, a replacement rate will be determined, as further specified in the Terms and Conditions of the Notes.

For this purpose, a "**Rate Replacement Event**" means:

- (a) a public statement or publication of information by the Administrator of the 5-year swap rate that it has ceased or will within a specified period of time cease to provide the 5-year swap rate permanently or indefinitely, provided that, where applicable, such period of time has lapsed, and provided further that at the time of cessation there is no successor administrator that will continue to provide the 5-year swap rate;
- (b) a public statement or publication of information by the Administrator of the 5-year swap rate that a material change in the methodology of calculating the 5-year swap rate has occurred or will within a specified period occur, provided that, where applicable, such period of time has lapsed;

- (c) a public statement or publication of information by the regulatory supervisor for the Administrator, the European Central Bank, an insolvency official with jurisdiction over the Administrator, a resolution authority with jurisdiction over the Administrator or a court or an entity with similar insolvency or resolution authority over the Administrator, which states that the Administrator has ceased or will within a specified period of time cease to provide the 5-year swap rate permanently or indefinitely, provided that, where applicable, such period of time has lapsed, and provided further that at the time of cessation there is no successor administrator that will continue to provide the 5-year swap rate; or
- (d) a notice by the Issuer to the Holders in accordance with the Terms and Conditions that it is no longer permitted under applicable laws, regulations or supervisory requirements to use the 5-year swap rate in the performance of its obligations under the Notes (including, without limitation, under the Benchmarks Regulation, as amended from time to time, if applicable).

The rate replacing the 5-year swap rate (which may be, without limitation, the 5-year swap rate following a material change in its methodology of calculation) will be determined by the calculation agent or an independent adviser, which in either case the Issuer appoints as its agent after a Rate Replacement Event has been determined. Such calculation agent or independent advisor will then determine a substitute, alternative, or successor rate, which in its function in the international capital markets constitutes an appropriate replacement for the 5-year swap rate. In determining a replacement rate, it shall, preferentially but without limitation, take into account any relevant guidance as further specified in the Terms and Conditions of the Notes. The calculation agent or independent advisor may also determine an adjustment spread (which may be positive or negative), or the formula or methodology for calculating a spread to be applied to the relevant replacement rate to reduce or eliminate, to the extent reasonably practicable, any transfer of economic value between the Issuer and the Holders that would otherwise arise as a result of the replacement of the 5-year swap rate with the replacement rate. To reflect the operation of the relevant replacement rate, the calculation agent or independent advisor may make further adjustments to the Terms and Conditions of the Notes.

In any event, however, no replacement rate and no replacement rate adjustments shall be determined and apply in accordance with the foregoing provisions if and to the extent that, in the determination of the Issuer, the same could reasonably be expected to prejudice the qualification of the Notes as AT1 Instruments under the Applicable Supervisory Regulations. In such case, the replacement rate would be fixed to the last available 5-year swap rate for euro swap transactions, on the Screen Page, expressed as an annual rate and no replacement rate adjustments will be made. This means the the Notes would essentially become fixed rate instruments in such case.

Investors should be aware that they face the risk that any changes to the 5-year swap rate and any determination of a replacement, substitute or alternative reference rate in case of a Benchmark Replacement Event may have a material adverse effect on the value of and the amount payable under Notes and may therefore result in a decline of yield of the Notes.

The Holders are exposed to risks relating to the reset of the 5-year swap rate, which may result in a decline of yield.

From and including the First Reset Date to, but excluding the date on which the Issuer redeems the Notes in whole, but not in part, pursuant to the Terms and Conditions of the Notes, the applicable interest rate will be determined on each Reset Date at the 5-year swap rate plus the initial credit spread. Unless previously redeemed, creditors of securities paying a fixed interest rate which will be reset during the term of the securities, as will be the case for the Notes, are exposed to the risk of fluctuating interest rate levels and uncertain interest income. Potential investors should be aware that the performance of the 5-year swap rate may decline. Due to varying interest income and the Issuer's option to generally cancel Interest Payments, potential investors are not able to determine a definite yield to maturity of the Notes at the time of purchase. Therefore, their return on investment cannot be compared with that of investments with longer fixed interest rate periods.

Potential investors in the Notes should bear in mind that neither the current nor the historical level of the 5-year swap rate is an indication of its future development.

Furthermore, during each Interest Period, there remains a risk of decreasing prices of the Notes as a result of changes in the market interest rate. This is because the market interest rate fluctuates. During each of these periods, the Holders are exposed to the risks as described under "*Resettable fixed rate securities have a market risk.*".

The Notes may be traded with accrued interest, but under certain circumstances described above, subsequent Interest Payments may not be made in full or in part.

The Notes may trade, and the prices for the Notes may appear on trading systems on which the Notes are traded, with accrued interest. If this occurs, purchasers of Notes in the secondary market will pay a price that includes such accrued interest upon the purchase of the Notes. However, if an Interest Payment is cancelled (in whole or in part) in relation to an Interest Payment Date, purchasers of such Notes will not be entitled to an Interest Payment (in full or in part, as the case may be), and will not receive any compensation for an increased price paid due to accrued interest (cf. "*Interest Payments are entirely discretionary and subject to the fulfilment of certain conditions. If the Issuer elects to cancel an Interest Payment or is prevented from paying interest by law or under the Terms and Conditions of the Notes, for example due to a pre-insolvency restriction on Interest Payments, such deferral will be non-cumulative, i.e. the Issuer will be under no obligation to compensate for such non-payment at any later point in time. There will be no circumstances under which an Interest Payment will be compulsory for the Issuer.*").

and "Interest Payments may be excluded and cancelled for regulatory reasons, including if the Issuer fails to comply with minimum requirements for own funds, capital buffer requirements, additional supervisory capital requirements and requirements for own funds and eligible liabilities.").

Resettable fixed rate securities have a market risk.

A holder of fixed rate securities is particularly exposed to the risk that the price of such securities falls as a result of changes in the market interest rate. While the nominal interest rate of the Notes is fixed until the relevant First Reset Date and will thereafter be reset every 5 years on the basis of the 5-year swap rate plus the relevant margin as set out in the Terms and Conditions of the Notes, the current interest rate on the capital market (the "market interest rate") typically changes on a daily basis. These changes of the market interest rate result in changes of the price of the Notes. If the market interest rate increases, the price of the fixed rate Notes would typically fall. If the market interest rate falls, the price of the fixed rate Notes would typically increase. Potential investors should be aware that movements in these market interest rates can adversely affect the market price of the Notes and can lead to losses for Holders seeking to sell the Notes.

3. Risks Relating to Certain Other Features of the Notes

The Terms and Conditions of the Notes, including the terms of payment of principal and interest are subject to amendments by way of majority resolutions of the Holders, and any such resolution will be binding for all Holders. Any such resolution may effectively be passed with the consent of less than a majority of the aggregate nominal amount of Notes outstanding. In case of an appointment of a joint representative, the individual right of a Holder of Notes to pursue and enforce its rights under the Terms and Conditions of the Notes may be limited.

Pursuant to the Terms and Conditions of the Notes, the Holders may consent by majority resolution to amendments of the Terms and Conditions of the Notes in accordance with and subject to the German Act on Issues of Debt Securities (*Gesetz über Schuldverschreibungen aus Gesamtemissionen – "SchVG"*). The voting process under the Terms and Conditions of the Notes will be governed in accordance with the SchVG, pursuant to which the required participation of Holder votes (quorum) is principally set at 50% of the aggregate nominal amount of outstanding notes in a vote without a meeting. In case there is no sufficient quorum in the vote without a meeting, there is no minimum quorum requirement in a second meeting or voting on the same resolution (unless the resolution to be passed requires a qualified majority, in which case Holders representing at least 25% of outstanding Notes by nominal amount must participate in the meeting or voting). As the relevant majority for Holders' resolutions is generally based on votes cast, rather than on nominal amount of Notes outstanding, the aggregate nominal amount such Notes required to vote in favour of an amendment will vary based on the Holders' votes participating. Therefore, a Holder is subject to the risk of being outvoted by a majority resolution of such Holders and losing rights towards the Issuer against his will in the event that Holders holding a sufficient aggregate nominal amount of the Notes participate in the vote and agree to amend the Terms and Conditions of the Notes or on other matters relating to the Notes by majority vote in accordance with the Terms and Conditions of the Notes and the SchVG. As such majority resolution is binding on all Holders of the Notes, including Holders who did not attend and vote at the relevant meeting and Holders who voted in a manner contrary to the majority, certain rights of such Holder against the Issuer under the Terms and Conditions of the Notes may be amended or reduced or even cancelled.

In addition, the Holders' rights to convene a Holders' meeting and to solicit a Holders' resolution are limited as, pursuant to § 9(1) of the SchVG, a Holders' meeting will only be convened if Holders jointly holding at least 5% of the outstanding Notes request such convocation in writing stating their particular interest in convening such a meeting.

If a joint representative (gemeinsamer Vertreter) is appointed for the Notes, the Holders may be deprived of their individual right to pursue and enforce their rights under the Terms and Conditions of the Notes against the Issuer.

In case of an appointment of a joint representative (*gemeinsamer Vertreter*) for all Holders, it is possible that a Holder may be deprived of its individual right to pursue and enforce its rights under the Terms and Conditions of the Notes against the Issuer, such right passing to the joint representative who is then exclusively responsible to claim and enforce the rights of all the Holders.

4. Risks Relating to the Taxation of the Notes

There may be circumstances under which the Notes may be subject to withholding tax which will not be grossed-up, including withholding tax under FATCA.

Investors should be aware that duties, other taxes and expenses, including any stamp duty, depositary charges, transaction charges and other charges, may be levied in accordance with the laws and practices in the countries where the Notes are transferred and that it is the obligation of an investor to pay all such duties, other taxes and expenses.

All amounts payable in respect of the Notes shall be paid without withholding or deduction for or on account of any present or future taxes or duties of whatever nature imposed or levied by way of withholding or deduction by or in or for the account of the Federal Republic of Germany or any political subdivision or any authority thereof or therein having power to tax unless such withholding or deduction is required by law. In the event of such withholding or deduction on payments of interest (but not in respect of the payment on any principal in respect of the Notes), the Issuer shall pay, in limited circumstances, such additional amounts ("**Additional Amounts**") as shall be necessary in order that the net amounts received by the Holders, after such withholding or deduction, shall equal the respective amounts which would otherwise have been receivable by the Holders in the absence of such withholding or deduction, as further specified in the Terms and Conditions of the Notes.

In no event will Additional Amounts be payable in respect of U.S. withholding taxes pursuant to the Foreign Account Tax Compliance Act ("**FATCA**"). Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a "foreign financial institution" may be required to withhold on certain payments it makes ("**foreign passthru payments**") to persons that fail to meet certain certification, reporting, or related requirements. A number of jurisdictions (including Germany) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, such withholding would not apply before the date that is two years after the date of publication in the Federal Register of final regulations defining the term "foreign passthru payment". To date such final regulations have not yet been published. Investors should consult their own tax advisors regarding how these rules may apply to their investment in the Notes. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Notes, neither the Issuer nor the Guarantor will pay any additional amounts as a result of the withholding.

Investors should be aware that payments made under the Notes and capital gains from the sale or redemption of the Notes may be subject to taxation in the jurisdiction of the holder of the Notes or in other jurisdictions in which the holder of the Notes is required to pay taxes.

Changes in tax law could affect the tax treatment of the Notes and allow the Issuer to redeem the Notes for reasons of taxation.

Investors should be aware that tax regulations and their application by the relevant taxation authorities may be subject to change, possibly with retrospective effect, and that this could negatively affect the value of the Notes. Any such change may cause the tax treatment of the Notes to change from the tax position at the time of purchase and may render the statements in this Prospectus concerning the relevant tax law and practice to be inaccurate or insufficient to cover the material tax considerations in respect of the Notes.

The German Federal Ministry of Finance issued on 10 April 2014 a decree regarding the tax treatment of Additional Tier 1 instruments (the "**Decree**"). According to the wording of the Decree, the principles set out therein were meant to only apply to certain specimen terms and conditions as attached to the Decree. While the Terms and Conditions of the Notes deviate from the specific set of terms and conditions subject to the Decree, the Issuer takes the view that such deviations are not material from a tax law perspective and as such, the considerations set out in the Decree should apply to the Notes. Notwithstanding, it is not possible to predict the precise tax treatment which will apply at any given time from and including the Issue Date due to changes in tax law and relevant jurisprudence. In particular, following the implementation of Council Directive (EU) 2016/1164 of 12 July 2016 laying down rules against tax avoidance practices that directly affect the functioning of the internal market as amended by Council Directive (EU) 2017/952 of 29 May 2017 amending Directive (EU) 2016/1164 as regards hybrid mismatches with third countries (the so-called "Anti-Tax Avoidance Directive" or "**ATAD**") into German income tax law, interest payments made in relation to certain hybrid arrangements are not tax deductible as business expenses of the payor if the corresponding results of the payee are non-taxable or only taxable to a limited extent in another country. Apart from financing transactions between associated enterprises, this only applies to hybrid arrangements that qualify as "structured arrangements" (*strukturierte Gestaltungen*). While the law defines "structured arrangements" in more detail to a certain extent, the definition of "structured arrangements" in the law is nevertheless open to interpretation. In addition, the future application of the new non-deductibility rules by the competent tax office cannot be predicted. While the Issuer believes that the provisions of ATAD and the new non-deductibility rules implemented into German income tax law are not aimed at applying to own funds instruments of credit institutions that are primarily or exclusively placed with investors that are not affiliated with the Issuer or the group to which the Issuer belongs such as the Notes, it cannot be ruled out entirely that the Notes could qualify as such 'structured arrangements' to which the new non-deductibility rules would apply. A change in the applicable tax treatment of the Notes may negatively affect the value of the Notes by giving the Issuer the right to redeem the Notes for reasons of taxation (cf. "*The Notes may be redeemed solely at the Issuer's option (subject to the prior approval of the competent authority), which may result in a lower yield than expected, and if the Notes are redeemed due to certain regulatory or tax reasons, the redemption amount may be substantially lower than the initial nominal amount of the Notes due to a Write-down that has not been fully written up. In case of a Write-down to zero, this may result in a full loss of the Holder's investment.*").

In addition, a letter by the European Commission to the Permanent Representation of the Netherlands to the European Union dated 22 June 2018 has raised concerns whether the tax deductibility of payments on AT1 Instruments constitute a preferential treatment of their issuers which would fall within state aid regulations and may be unjustified pursuant to such regulations. There has not been a comparable communication by the European Commission or a ruling on this issue by the European Court of Justice with regard to German tax law. In the view of the Issuer, the tax deductibility of payments on AT1 Instruments

in Germany does not violate state aid regulations as the tax deductibility follows from general principles of German tax laws and not from a preferential treatment under German tax law specifically applicable to financial institutions as was previously the case in the Netherlands. However, if the European Commission came to a different conclusion, this could result in interest payments no longer being deductible and may give the Issuer the right to redeem the Notes for reasons of taxation.

5. Other Related Risks

There has been no prior market for the Notes, a liquid market may not develop and the Notes may be subject to significant market price volatility.

The Notes are a new issue of securities. Prior to their issue, there has been no public market for the Notes. Although application has been made to have the Notes listed on the Official List of the Luxembourg Stock Exchange and admitted to trading on the regulated market "*Bourse de Luxembourg*" of the Luxembourg Stock Exchange which appears on ESMA's list of regulated markets, there can be no assurance that an active public market for the Notes will develop. If such a market develops, neither the Issuer nor the Managers nor any other person is obligated to maintain it. In an illiquid market, an investor might not be able to sell his Notes at all or at any time at fair market prices. The possibility to sell the Notes might additionally be restricted due to country-specific reasons. Moreover, the liquidity and the market for the Notes can be expected to vary with changes in the securities market and economic conditions, the financial condition and prospects of the Issuer and other factors which generally influence the market prices of securities. Such fluctuations may significantly affect liquidity and market prices for the Notes. Market liquidity in hybrid financial instruments similar to the Notes has historically been limited. In addition, potential investors should note that hybrid financial instruments similar to the Notes have experienced pronounced price fluctuations in connection with the crisis of the financial markets and the banking sector since 2008. Notes denominated in different currencies may trade differently even if their terms and conditions are otherwise similar.

The trading price of the Notes could be adversely impacted by a change in the credit ratings assigned to the Issuer and/or the Notes.

The trading price of the Notes is expected to be influenced by a change in the creditworthiness (or the perception thereof) of the Issuer and by the credit rating of the Issuer and a number of other factors including, but not limited to, market interest, rate of return, certain market expectations with regard to the Issuer making use of a right to call the Notes for redemption and the right not to pay interest on the Notes. The Notes to be issued are expected to be rated Ba3 by Moody's Deutschland GmbH (Moody's), BB- by S&P Global Ratings Europe Limited (S&P) and BB by Fitch Ratings Ireland Limited (Fitch). Any change in, or withdrawal of, the credit rating(s) assigned to the Issuer and/or the Notes may affect the market value and could reduce the liquidity of the Notes. Ratings downgrades could occur as a result of, among other causes, changes in the ratings methodologies used by credit rating agencies. Changes in credit rating agencies' views of the level of implicit sovereign support for European banks and their groups are likely to lead to ratings downgrades.

Ratings may also not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. Further, any rating assigned to the Notes at the date of issuance is not indicative of future performance of the Issuer's business or its future creditworthiness. A credit rating is not a recommendation to buy, sell or hold securities and any rating initially assigned to the Notes may at any time be lowered or withdrawn entirely by a rating agency, or the Issuer may decide not to maintain a solicited rating by one or more rating agencies which may or may not lead to a withdrawal of the credit ratings assigned to the Notes.

The market for debt securities issued by banks (such as the Notes) is also influenced by economic and market conditions, interest rates, currency exchange rates and inflation rates in Europe and other industrialised countries and areas. There can be no assurance that events in Germany, Europe, the United States or elsewhere will not cause market volatility or that such volatility will not adversely affect the price of Notes or that economic and market conditions will not have any other adverse effect. Such factors may favourably or adversely affect the trading price of the Notes. The price at which a Holder can sell the Notes might be considerably below the issue price or the purchase price paid by such Holder.

Exchange rate risks and exchange controls.

The Issuer will pay principal and interest on the Notes in euro. This presents certain risks relating to currency conversion if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the euro. These include the risk that exchange rates may significantly change (including changes due to devaluation of the euro or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to euro would decrease (a) the Investor's Currency-equivalent yield on the Notes, (b) the Investor's Currency equivalent value of the principal payable on the Notes and (c) the Investor's Currency equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal. In addition, there is the risk that the euro is or becomes illiquid and/or subject to currency restrictions including conversion restrictions and exchange controls imposed by authorities with jurisdiction over euro.

Such currency risks generally depend on factors over which the Issuer and the Holder have no control, such as economic and political events and the supply of and demand for the relevant currencies. In recent years, rates of exchange for certain currencies have been highly volatile, and such volatility may be expected to continue in the future. Fluctuations in any particular exchange rate that have occurred in the past are not necessarily indicative, however, of fluctuations in the rate that may occur during the term of the Notes.

ESTIMATED NET PROCEEDS AND USE OF PROCEEDS

In connection with the offering of the Notes, the Bank will receive net proceeds of approximately EUR 1,250,300,000. The Bank intends to use these proceeds from the sale of the Notes to strengthen its regulatory capital base.

Wenn die Schuldverschreibungen insgesamt nicht mehr als AT1 Instrumente oder andere Eigenmittelinstrumente qualifizieren, gehen gemäß § 46f Abs. 7a KWG oder einer Nachfolgebestimmung die Verbindlichkeiten aus den Schuldverschreibungen sämtlichen Verbindlichkeiten aus Eigenmitteln vor.

In any such event, no amounts shall be payable in respect of the Notes until all senior ranking obligations in accordance with this provision have been satisfied in full.

Werden die Schuldverschreibungen (i) unter anderen als den in § 2(2) bis (5) beschriebenen Umständen oder (ii) anders als infolge einer Kündigung oder eines Ankaufs nach Maßgabe dieser Anleihebedingungen zurückgezahlt oder von der Emittentin zurückerworben, so ist der gezahlte Betrag der Emittentin ohne Rücksicht auf entgegenstehende Vereinbarungen zurück zu gewähren.

(6) *Zahlungsverbot.* Die Nachrangregelung in diesem § 2 begründet ein Zahlungsverbot dahingehend, dass Zahlungen auf die Schuldverschreibungen von der Emittentin nach eigenem Ermessen nur nach Maßgabe der Nachrangregelung geleistet und von den Gläubigern verlangt werden dürfen; dies schließt Zahlungen im Zusammenhang mit einem Ankauf der Schuldverschreibungen durch die Emittentin ein.

(7) *Hinweis auf die Möglichkeit von gesetzlichen Abwicklungsmaßnahmen.* Nach den für die Emittentin geltenden Abwicklungsvorschriften unterliegen die Schuldverschreibungen den Befugnissen der zuständigen Behörde,

Abwicklungsmaßnahmen, welche die Schuldverschreibungen betreffen, sind für die Gläubiger der Schuldverschreibungen verbindlich. Aufgrund einer Abwicklungsmaßnahme bestehen keine Ansprüche oder anderen Rechte gegen die Emittentin. Insbesondere stellt die Anordnung einer Abwicklungsmaßnahme keinen Kündigungsgrund dar.

(5) No subsequent agreement may limit the subordination pursuant to § 2(2) or shorten the term of the Notes or any applicable notice period. If the Notes are redeemed or repurchased by the Issuer otherwise than (i) in the circumstances described in § 2(2) bis (5) or (ii) as a result of a redemption or purchase as set forth in these Terms and Conditions, then the amounts paid must be returned to the Issuer irrespective of any agreement to the contrary.

(6) *Payment Restrictions.* The provision on subordination in this § 2 shall establish a payment prohibition to the effect that payments on the Notes may only be made by the Issuer at its sole discretion and may only be demanded by the Holders in accordance with this subordinated ranking provision; this includes payments in connection with a purchase of the Notes by the Issuer.

(7) *Note on the possibility of statutory resolution measures.* Under the relevant resolution laws and regulations as applicable to the Issuer from time to time, the Notes may be subject to the powers exercised by the competent resolution authority to:

- (c) If, on the 10th Business Day preceding the Determination Date (the "**Screen Page Confirmation Date**"), the 5-year swap rate is not displayed on the Original Screen Page but is available on an alternative page selected by the Issuer in its reasonable discretion, such alternative page will then be used going forward for the purpose of the determination of the Reference Rate but may be itself subject to a replacement with an alternative page if such initially selected alternative page does not display the 5-year swap rate on any subsequent Screen Page Confirmation Date (any such selected page an "**Alternative Page**" and, together with the Original Screen Page, the "**Screen Page**"). Die Emittentin wird den Gläubigern so bald wie möglich nach dem Ersatzzinssatz-Festlegungstag den Ersatzzinssatz sowie die Ersatzzinssatz-Anpassungen durch Mitteilung gemäß § 11 mitteilen und das Clearing System auffordern, der Globalurkunde die vorgelegten Dokumente in geeigneter Weise beizufügen, um die Änderung der Anleihebedingungen zu berücksichtigen.

Im Falle, dass ein Ersatzzinssatz, eine etwaige erforderliche Anpassungsspanne und jedwede sonstigen maßgeblichen Ersatzzinssatz-Anpassungen bezogen auf den 5-Jahres Swapsatz nicht in Einklang mit den vorstehenden Bestimmungen festgelegt werden, ist der Referenzsatz für den Maßgeblichen Zinsfeststellungstag die Letzte Verfügbare Rate.

The Issuer shall give notice to the Holder in accordance with § 11 of the Replacement Rate and the Replacement Rate Adjustments as soon as practicable after the Replacement Rate Determination Date and shall request the Clearing System to attach the documents submitted to the Global Note in an appropriate manner to reflect the modification of the Terms and Conditions.

If a Replacement Rate, any necessary Adjustment Spread and all other relevant Replacement Rate Adjustments are not determined in respect of the 5-year swap rate in accordance with the foregoing, the Reference Rate applicable for the Relevant Determination Date shall be the Last Available Rate.

- (g) Notwithstanding the foregoing provisions, however, no Replacement Rate and no Replacement Rate Adjustments shall be applied if and to the extent that, in the determination of the Issuer, the same could reasonably be expected to prejudice the qualification of the Notes as AT1 Instruments under the Applicable Supervisory Regulations (as defined below).

In such case,

- (i) the Replacement Rate applicable to the next and each subsequent Reset Period, shall be the Last Available Rate; and
- (ii) no Replacement Rate Adjustments shall be made.

Ein Unterlassen der Mitteilungen nach (a)(i) und/oder (a)(ii) berührt nicht die Wirksamkeit einer Herabschreibung. Eine nicht erfolgte Mitteilung ist unverzüglich nachzuholen. Soweit die Herabschreibung oder Wandlung eines anderen Instruments des zusätzlichen Kernkapitals der Emittentin aus irgendeinem Grunde nicht wirksam ist, (i) berührt dies nicht die Verpflichtung zur Herabschreibung der Schuldverschreibungen und (ii) die unwirksame Herabschreibung bzw. Wandlung bleibt unberücksichtigt bei der Bestimmung des Herabschreibungsbetrags der Schuldverschreibungen.

- (b) Nach der Vornahme einer Herabschreibung können der Aktuelle Nennbetrag jeder Schuldverschreibungen in jedem der nachfolgenden Geschäftsjahre der Emittentin bis zur vollständigen Höhe des Ursprünglichen Nennbetrags (soweit nicht zuvor zurückgezahlt oder angekauft und entwertet) nach Maßgabe

exceed the sum of the nominal amounts of the relevant instruments outstanding at the time of occurrence of the Trigger Event.

Upon the occurrence of a Trigger Event, the Issuer shall:

- (i) inform the competent authority that is responsible for the Issuer and, in accordance with § 11, the Holders of the Notes without undue delay about the occurrence of such Trigger Event and the fact that a write-down will have to be effected, and
- (ii) determine the write-down to be effected and the resultant new Prevailing Nominal Amount without undue delay, but not later than within one month (unless the competent authority of the Issuer shortens such period), and notify such write-down together with the new Prevailing Nominal Amount (i) to the competent authority, (ii) to the Holders of the Notes in accordance with § 11, (iii) to the Calculation Agent and the Paying Agent and (iv), if required by the rules of any stock exchange on which the Notes are listed from time to time at the request of the Issuer, to such stock exchange.

The write-down shall be deemed to be effected at the time when the notices pursuant to (a)(i) and (a)(ii) are given and the Prevailing Nominal Amount of each Note shall be deemed to be reduced at such time in the amount as specified in the notice. Any failure to give notices pursuant to (a)(i) and/or (a)(ii) will not affect the effectiveness of, or otherwise invalidate, any write-down. A notice which has not been given shall be given without undue delay. If and to the extent that the write-down or conversion of any other additional tier 1 instrument of the Issuer is not effective for any reason, (i) the ineffectiveness of any such write-down or conversion shall not prejudice the requirement to effect a write-down of the Notes and (ii) the ineffective write-down or conversion shall not be taken into account in determining the write-down amount of the Notes.

- (b) After a write-down has been effected, the Prevailing Nominal Amount of each Note, unless previously redeemed or repurchased and cancelled, may be written up in accordance with the following provisions of § 5(4)(b) in each of the financial years of the Issuer subsequent to the occurrence of such write-down until the full

der folgenden Regelungen dieses § 5(4)(b) wieder hochgeschrieben werden, soweit ein entsprechender Jahresüberschuss nach dem handelsrechtlichen Einzelabschluss der Emittentin (der "**Jahresüberschuss**") zur Verfügung steht und mithin hierdurch kein Jahresfehlbetrag entsteht oder erhöht würde. Die Hochschreibung erfolgt mit Wirkung ab dem Zinszahlungstag (einschließlich), der unmittelbar auf das Geschäftsjahr der Emittentin folgt, für das der zuvor genannte Jahresüberschuss festgestellt wurde.

Die Hochschreibung erfolgt gleichrangig mit der Hochschreibung anderer Instrumente des zusätzlichen Kernkapitals im Sinne der CRR, es sei denn, die Emittentin verstieße mit einem solchen Vorgehen gegen gesetzliche oder aufsichtsrechtliche Verpflichtungen.

Die Vornahme einer Hochschreibung steht vorbehaltlich der nachfolgenden Vorgaben (i) bis (v) im Ermessen der Emittentin. Insbesondere kann die Emittentin auch dann ganz oder teilweise von einer Hochschreibung absehen, wenn ein entsprechender Jahresüberschuss zur Verfügung steht und die Vorgaben (i) bis (v) erfüllt wären.

- (i) Soweit der festgestellte bzw. festzustellende Jahresüberschuss für die Hochschreibung der Schuldverschreibungen (mithin jeweils von Nennbetrag und Rückzahlungsbetrag) und anderer, mit einem vergleichbaren Auslöseereignis (ggf. mit einer abweichenden harten Kernkapitalquote als Auslöser) ausgestatteter Instrumente des zusätzlichen Kernkapitals im Sinne der CRR verwendet werden soll und nach Maßgabe von (ii) und (iii) zur Verfügung steht, erfolgt die Hochschreibung *pro rata* nach Maßgabe der ursprünglichen Nennbeträge der Instrumente.
- (ii) Der Höchstbetrag, der insgesamt für die Hochschreibung der Schuldverschreibungen und anderer, herabgeschriebener AT1 Instrumente sowie die Zahlung von Zinsen und anderen Ausschüttungen auf herabgeschriebene AT1 Instrumente verwendet werden kann, errechnet sich vorbehaltlich der jeweils geltenden technischen Regulierungsstandards im Zeitpunkt der Vornahme der Hochschreibung nach folgender Formel:

$$H = \frac{J \cdot S}{T1}$$

'H' bezeichnet den für die Hochschreibung von herabgeschriebenen AT1 Instrumenten und Ausschüttungen auf herabgeschriebene AT1 Instrumente zur

Initial Nominal Amount has been reached, to the extent that a corresponding annual profit (*Jahresüberschuss*) is recorded on the basis of the unconsolidated annual financial statements of the Issuer prepared in accordance with German commercial law (the "**Annual Profit**") and the write-up will not give rise to or increase an annual loss (*Jahresfehlbetrag*). The write-up will occur with effect as of the Interest Payment Date (including) immediately following the financial year of the Issuer for which the abovementioned Annual Profit was determined.

The write-up shall be effected *pari passu* with write-ups of other additional tier 1 instruments within the meaning of the CRR, unless this would cause the Issuer to be in breach with any statutory or regulatory obligations.

Subject to the conditions (i) to (v) below, it shall be at the discretion of the Issuer to effect a write-up. In particular, the Issuer may effect a write-up only in part or effect no write-up at all even if a corresponding Annual Profit is recorded and the conditions (i) to (v) are fulfilled.

- (i) To the extent that the Annual Profit determined or to be determined is to be used for a write-up of the Notes (i.e. a write-up of the nominal amount and of the Redemption Amount) and of other additional tier 1 instruments within the meaning of the CRR, the terms of which provide for a similar Trigger Event (also if such terms provide for a different common equity tier 1 capital ratio as trigger), and is available in accordance with (ii) and (iii) below, such write-up shall be effected *pro rata* in proportion to the initial nominal amounts of the instruments.
- (ii) The maximum total amount that may be used for a write-up of the Notes and of other AT1 Instruments that have been written down and for the payment of interest and other Distributions on AT1 Instruments that have been written down shall be calculated, subject to the regulatory technical standards applicable at the time when the write-up is effected, in accordance with the following formula:

$$H = \frac{J \times S}{T1}$$

'H' means the maximum amount available for the write-up of, and Distributions on, AT1 Instruments that have been written

Verfügung stehenden Höchstbetrag;

'J' bezeichnet den festgestellten bzw. festzustellenden Jahresüberschuss des Vorjahres;

'S' bezeichnet die Summe der ursprünglichen Nennbeträge der herabgeschriebenen AT1 Instrumente (d.h. vor Vornahme von Herabschreibungen infolge eines Auslöseereignisses);

'T1' bezeichnet den Betrag des Kernkapitals der Emittentin unmittelbar vor Vornahme der Hochschreibung.

Die Bestimmung des Höchstbetrags 'H' hat sich jeweils nach den geltenden technischen Regulierungsstandards der Europäischen Bankenaufsichtsbehörde (European Banking Authority) zu richten. Der Höchstbetrag 'H' ist von der Emittentin jeweils im Einklang mit den zum Zeitpunkt der Bestimmung geltenden Anforderungen zu bestimmen und der so bestimmte Betrag der Hochschreibung zugrunde zu legen, ohne dass es einer Änderung dieses Absatzes (ii) bedürfte.

- (iii) Insgesamt darf die Summe der Beträge der Hochschreibungen auf AT1 Instrumente zusammen mit etwaigen Dividenden und anderen Ausschüttungen in Bezug auf Geschäftsanteile, Aktien und andere Instrumente des harten Kernkapitals der Emittentin (einschließlich der Zinszahlungen und anderen Ausschüttungen auf herabgeschriebene AT1 Instrumente) in Bezug auf das betreffende Geschäftsjahr den MDA nicht überschreiten.
- (iv) Hochschreibungen der Schuldverschreibungen gehen Dividenden und anderen Ausschüttungen in Bezug auf Geschäftsanteile, Aktien und andere Instrumente des harten Kernkapitals der Emittentin nicht vor, d.h. diese können auch dann vorgenommen werden, solange keine vollständige Hochschreibung erfolgt ist.
- (v) Zum Zeitpunkt einer Hochschreibung darf kein Auslöseereignis fortbestehen. Eine Hochschreibung ist zudem ausgeschlossen, soweit diese zu dem Eintritt eines Auslöseereignisses führen würde.

Wenn sich die Emittentin für die Vornahme einer Hochschreibung nach den Bestimmungen dieses § 5(4)(b) entscheidet, wird sie bis spätestens 10 Kalendertage vor dem betreffenden Zinszahlungstag gemäß § 11 die Gläubiger der Schuldverschreibungen, die Berechnungsstelle, die Zahlstelle sowie jede Börse, an der die betreffenden Schuldverschreibungen auf

'J' means the Annual Profit determined or to be determined for the previous year;

'S' means the sum of the initial nominal amounts of the AT1 Instruments that have been written down (i.e. before write-downs due to a Trigger Event are effected);

'T1' means the amount of the tier 1 capital of the Issuer immediately before the write-up is effected.

The maximum amount 'H' shall be determined in accordance with the European Banking Authority's regulatory technical standards as applicable from time to time. The maximum amount 'H' shall be determined by the Issuer in accordance with the requirements applicable at the time of determination, and the write-up shall be based on the amount so determined without requiring any amendment to this subparagraph (ii).

- (iii) In total, the sum of the amounts of the write-ups of AT1 Instruments together with the amounts of any dividend payments and other Distributions on shares and other common equity tier 1 instruments of the Issuer (including payment of interests and other Distributions on AT1 Instruments that have been written down) for the relevant financial year must not exceed the MDA.
- (iv) Write-ups of the Notes do not have priority over dividend payments and other Distributions on shares and other common equity tier 1 instruments of the Issuer, i.e. such payments and Distributions are permitted even if no full write-up has been effected.
- (v) At the time of a write-up, there must not exist any Trigger Event that is continuing. A write-up is also excluded if such write-up would give rise to the occurrence of a Trigger Event.

If the Issuer elects to effect a write-up in accordance with the provisions of this § 5(4)(b), it shall notify the write-up as of the relevant Interest Payment Date (including the amount of the write-up as a percentage of the Initial Nominal Amount of the Notes, the new Prevailing Nominal Amount and the effective date of the write-up (in each case a "**Write-up**

Die Hochschreibung gilt als bei Abgabe der Mitteilung an die Gläubiger gemäß § 11 vorgenommen und der Aktuelle Nennbetrag jeder Schuldverschreibung ist wie in der Mitteilung angegeben zum Zeitpunkt des Hochschreibungstags erhöht.

Der vollständige oder teilweise Ausschluss von den Eigenmitteln infolge einer Herabschreibung nach § 5(4)(a) oder einer Hochschreibung nach § 5(4)(b) (oder das Nichtvorhandensein einer Hochschreibung) begründet kein Kündigungsrecht nach § 5(5).

- (5) *Rückzahlung aus regulatorischen Gründen.* Die Emittentin kann die Schuldverschreibungen insgesamt, jedoch nicht teilweise, mit der vorherigen Zustimmung der zuständigen Behörde und gemäß § 5(7) kündigen und zu ihrem Rückzahlungsbetrag zuzüglich (vorbehaltlich eines Ausschlusses der Zinszahlung nach § 3(8)) bis zu dem für die Rückzahlung festgesetzten Tag (ausschließlich) aufgelaufener Zinsen zurückzahlen, falls sich die aufsichtsrechtliche Einstufung der Schuldverschreibungen ändert, was wahrscheinlich zu (i) ihrem vollständigen oder teilweisen Ausschluss von den Eigenmitteln der Emittentin im Sinne der CRR oder (ii) ihrer Neueinstufung als Eigenmittel geringerer Qualität als am Begebungstag führen würde, vorausgesetzt, dass Bedingungen in Artikel 78(4)(a) CRR, erfüllt sind, nach denen die zuständige Behörde eine solche Rückzahlung gestatten kann, wenn (i) sie es für ausreichend sicher hält, dass eine Änderung der aufsichtsrechtlichen Einstufung stattfindet und (ii) die Emittentin ihr hinreichend nachgewiesen hat, dass die aufsichtsrechtliche Neueinstufung am Begebungstag nicht vorherzusehen war.
- (6) *Rückzahlung aus steuerlichen Gründen.* Die Emittentin kann die Schuldverschreibungen jederzeit insgesamt, jedoch nicht teilweise, mit der vorherigen Zustimmung der zuständigen Behörde und gemäß § 5(7) kündigen und zu ihrem Rückzahlungsbetrag zuzüglich (vorbehaltlich eines Ausschlusses der Zinszahlung nach § 3(8)) bis zum für die Rückzahlung festgesetzten Tag (ausschließlich) aufgelaufener Zinsen zurückzahlen, falls sich die steuerliche Behandlung der Schuldverschreibungen in Folge einer nach dem Verzinsungsbeginn eingetretenen Rechtsänderung, einschließlich einer Änderung von steuerrechtlichen oder aufsichtsrechtlichen Gesetzen, Regelungen oder Verfahrensweisen, ändert (insbesondere, jedoch nicht

The write-up shall be deemed to be effected at the time when the notice to the Holders is given in accordance with § 11 and the Prevailing Nominal Amount of each Note shall be increased as specified in the notice with effect as of the Write-up Date.

The exclusion in full or in part from the own funds due to a write-down pursuant to § 5(4)(a) or a write-up pursuant to § 5(4)(b) (or an absence thereof) does not constitute a right to redeem under § 5(5).

- (5) *Redemption for Regulatory Reasons.* The Issuer may redeem the Notes in whole, but not in part, at any time, with the prior approval of the competent authority and in accordance with § 5(7), at their Redemption Amount together with interest (if any, subject to a cancellation of interest payment pursuant to § 3(8)) accrued to the date fixed for redemption (exclusive), if there is a change in the regulatory classification of the Notes that would be likely to result in (i) their exclusion in full or in part from the Issuer's own funds under the CRR or (ii) a reclassification as a lower quality form of the Issuer's own funds since the issuance date, provided that the conditions in Article 78(4)(a) CRR are met, pursuant to which the competent authority may approve such redemption if (i) it considers the change in the regulatory classification to be sufficiently certain and (ii) the Issuer demonstrated to its satisfaction that the regulatory reclassification of the Notes was not reasonably foreseeable at the date of issuance.
- (6) *Redemption for Reasons of Taxation.* The Issuer may redeem the Notes in full, but not in part, at any time, with the prior approval of the competent authority and in accordance with § 5(7), at their Redemption Amount together with interest (if any, and subject to a cancellation of the interest payment pursuant to § 3(8)) accrued to the date fixed for redemption (exclusive), if the tax treatment of the Notes changes due to a change in applicable legislation, including a change in any fiscal or regulatory legislation, rules or practices, which takes effect after the Interest Commencement Date (including but not limited to the tax deductibility of interest payable on the Notes or the obligation to pay Additional Amounts (as defined in § 7(1)), provided that the conditions in Article 78(4)(b) CRR are met,

ausschließlich, im Hinblick auf die steuerliche Abzugsfähigkeit der unter den Schuldverschreibungen zu zahlenden Zinsen oder die Verpflichtung zur Zahlung von zusätzlichen Beträgen (wie in § 7(1) definiert)), vorausgesetzt, dass die Bedingungen in Artikel 78(4)(b) CRR erfüllt sind, nach denen die zuständige Behörde eine solche Rückzahlung gestatten kann, wenn sich die geltende steuerliche Behandlung der Schuldverschreibungen ändert und die Emittentin ihr hinreichend nachgewiesen hat, dass die Änderung der steuerlichen Behandlung wesentlich ist und am Begebungstag nicht vorherzusehen war.

Eine Änderung der steuerlichen Behandlung der Schuldverschreibungen, die zu einem Einbehalt oder Abzug von Steuern auf die auf die Schuldverschreibungen zu zahlenden Beträge führt, die jedoch zu keiner Verpflichtung der Emittentin zur Zahlung von zusätzlichen Beträgen (wie in § 7(1) definiert) führt, begründet kein Kündigungsrecht gemäß diesem § 5(6).

- (7) *Ankündigung und Kündigungserklärung.* Die Emittentin darf die Schuldverschreibungen in jedem Fall nur zurückzahlen, sofern (i) kein Auslöseereignis eingetreten ist und, falls ein Auslöseereignis eingetreten ist, dieses nicht fort dauert, (ii) die Emittentin am Rückzahlungstag weder überschuldet im Sinne von § 19 InsO noch zahlungsunfähig im Sinne von § 17 InsO ist, und (iii) die Zahlung des Rückzahlungsbetrages nicht zu einer Überschuldung oder Zahlungsunfähigkeit der Emittentin führt; § 41 InsO bleibt unberührt. Eine Kündigung ist (i) spätestens 30 Tage vor dem für die Rückzahlung vorgesehenen Termin unverbindlich anzukündigen (die "**Ankündigung**") und (ii) spätestens an dem für die Rückzahlung vorgesehenen Termin verbindlich auszusprechen (die "**Kündigungserklärung**"). Die Ankündigung muss den für die Rückzahlung festgelegten Termin und im Falle einer Kündigung nach § 5(5) oder (6) den Grund für die Kündigung nennen. Die Ankündigung ist gemäß § 11 zu veröffentlichen. Die Kündigungserklärung ist unwiderruflich und gegenüber dem Clearing System auszusprechen und anschließend unverzüglich gemäß § 11 zu veröffentlichen.

- (8) *Kein Kündigungsrecht der Gläubiger.* Die Gläubiger sind zur Kündigung der Schuldverschreibungen nicht berechtigt.

§ 6

Die Zahlstelle und die Berechnungsstelle

- (1) *Bestellung; bezeichnete Geschäftsstelle.* Die anfänglich bestellte "**Zahlstelle**", die anfänglich bestellte "**Berechnungsstelle**" und deren jeweilige anfänglich bezeichnete Geschäftsstelle lauten wie folgt:

pursuant to which the competent authority may approve such redemption if there is a change in the applicable tax treatment of the Notes which the Issuer demonstrated to its satisfaction is material and was not reasonably foreseeable at the date of issuance of the Notes.

Any changes in the tax treatment of the Notes resulting in a withholding or deduction of taxes on amounts payable in respect of the Notes which, however, do not create an obligation of the Issuer to pay Additional Amounts (as defined in § 7(1)), will not constitute a reason to call the Notes for redemption pursuant to this § 5(6).

- (7) *Indication and Notice of Redemption.* In any event, the Issuer may only redeem the Notes if (i) no Trigger Event has occurred and if a Trigger Event has occurred, this is not continuing, (ii) the Issuer is neither over-indebted within the meaning of § 19 InsO nor illiquid within the meaning of § 17 InsO on the date of redemption and (iii) the payment of the Redemption Amount does not result in an over-indebtedness or illiquidity of the Issuer; § 41 InsO remains unaffected. Any redemption shall (i) be indicated to the holders in a non-legally binding manner not later than 30 days prior to the date fixed for redemption (the "**Indication**") and (ii) be given no later than on the date fixed for redemption (the "**Redemption Notice**"). The Indication shall be published in accordance with § 11 and shall state the date fixed for redemption and, in the case of a notice pursuant to § 5(5) or (6), the reason for the redemption. The Redemption Notice shall be irrevocable and be stated towards the Clearing System and shall be published in accordance with § 11 as soon as practicable thereafter.

- (8) *No Call Right of the Holders.* The Holder have no right to call the Notes for redemption.

Die Zahlstelle und die Berechnungsstelle behalten sich das Recht vor, jederzeit ihre jeweilige bezeichnete Geschäftsstelle durch eine andere bezeichnete Geschäftsstelle in demselben Land zu ersetzen.

- (2) *Änderung der Bestellung oder Abberufung.* Die Emittentin behält sich das Recht vor, jederzeit die Bestellung der Berechnungsstelle oder einer Zahlstelle zu ändern oder zu beenden und eine andere Berechnungsstelle oder zusätzliche oder andere Zahlstellen zu bestellen. Die Emittentin wird zu jedem Zeitpunkt eine Zahlstelle und eine Berechnungsstelle unterhalten. Eine Änderung, Abberufung, Bestellung oder ein sonstiger Wechsel wird nur wirksam (außer im Insolvenzfall, in dem eine solche Änderung sofort wirksam wird), sofern die Gläubiger hierüber gemäß § 11 vorab unter Einhaltung einer Frist von mindestens 25 und nicht mehr als 45 Tagen informiert wurden.
- (3) *Beauftragte der Emittentin.* Die Berechnungsstelle und die Zahlstelle handeln ausschließlich als Beauftragte der Emittentin und übernehmen keinerlei Verpflichtungen gegenüber den Gläubigern, und es wird kein Auftrags- oder Treuhandverhältnis zwischen ihnen und den Gläubigern begründet.

Im Fall des Einbehalts oder Abzugs in Bezug auf Zinszahlungen (nicht jedoch Zahlungen auf Kapital) wird die Emittentin (vorbehaltlich § 3(8)) diejenigen zusätzlichen Beträge (die "**zusätzlichen Beträge**") zahlen, die erforderlich sind, damit die den Gläubigern zufließenden

The Paying Agent and the Calculation Agent reserve the right at any time to change their respective specified office to some other specified office in the same country.

- (2) *Variation or Termination of Appointment.* The Issuer reserves the right at any time to vary or terminate the appointment of the Calculation Agent or any Paying Agent and to appoint another Calculation Agent or additional or other Paying Agents. The Issuer shall at all times maintain a Paying Agent and a Calculation Agent. Any variation, termination, appointment or change shall only take effect (other than in the case of insolvency, when it shall be of immediate effect) after not less than 25 nor more than 45 days' prior notice thereof shall have been given to the Holders in accordance with § 11.
- (3) *Agents of the Issuer.* The Calculation Agent and the Paying Agent act solely as agents of the Issuer and do not assume any obligations towards or relationship of agency or trust for any Holder.

**§ 7
Taxation**

- (1) *Withholding Taxes and Additional Amounts.* All amounts payable in respect of the Notes shall be paid without withholding or deduction for or on account of any present or future taxes or duties of whatever nature imposed or levied by way of withholding or deduction by or in or for the account of the Federal Republic of Germany or any political subdivision or any authority thereof or therein having power to tax unless such withholding or deduction is required by law. In the event of such withholding or deduction on payments of interest (but not in respect of the payment on any principal in respect of the Notes), the Issuer shall (subject to § 3(8)) pay such additional amounts ("**Additional Amounts**") as shall be necessary in order that the net amounts received by the Holders, after such withholding or deduction, shall equal the respective amounts which would otherwise have

- (b) wegen einer gegenwärtigen oder früheren persönlichen oder geschäftlichen Beziehung des Gläubigers zu Deutschland zu zahlen sind, und nicht allein deshalb, weil Zahlungen auf die Schuldverschreibungen aus Quellen in Deutschland stammen (oder für Zwecke der Besteuerung so behandelt werden) oder dort besichert sind; oder
- (c) aufgrund (i) einer Richtlinie oder Verordnung der Europäischen Union betreffend die Besteuerung von Zinserträgen oder (ii) einer zwischenstaatlichen Vereinbarung über deren Besteuerung, an der die Europäische Union und/oder Deutschland beteiligt ist, oder (iii) einer gesetzlichen Vorschrift, die diese Richtlinie, Verordnung oder Vereinbarung umsetzt oder befolgt, abzuziehen oder einzubehalten sind; oder

- (a) are payable by any person acting as custodian bank or collecting agent on behalf of a Holder, or otherwise in any manner which does not constitute a deduction or withholding by the Issuer from payments made by it; or
- (b) are payable by reason of the Holder having, or having had, some personal or business connection with Germany and not merely by reason of the fact that payments in respect of the Notes are, or for purposes of taxation are deemed to be, derived from sources in, or are secured in, Germany; or
- (c) are deducted or withheld pursuant to (i) any European Union directive or regulation concerning the taxation of interest income, or (ii) any international treaty or understanding relating to such taxation and to which the European Union and/or Germany or is a party, or (iii) any provision of law implementing, or complying with, or introduced to conform with, such directive, regulation, treaty or understanding; or

- (2) *FATCA.* Alle in Bezug auf die Schuldverschreibungen zu zahlenden Beträge werden unter dem Vorbehalt der Einhaltung der Sections 1471 bis 1474 des US-Bundessteuergesetzes (United States Internal Revenue Code) von 1986 ("**IRC**"), sämtlicher darunter erlassenen Vorschriften oder Vereinbarungen, einschließlich einer Vereinbarung gemäß Section 1471(b) IRC, und offizieller Auslegungen dieser Bestimmungen ("**FATCA**") sowie jedes Gesetzes zur Umsetzung einer zwischenstaatlichen Vereinbarung in Bezug auf FATCA gezahlt. Die Emittentin ist nicht verpflichtet, im Zusammenhang mit der Einhaltung der vorgenannten Vorschriften zusätzliche Beträge zu zahlen oder einen Gläubiger der Schuldverschreibungen anderweitig freizustellen.

§ 8 Vorlegungsfrist

Die in § 801 Absatz 1 Satz 1 BGB bestimmte Vorlegungsfrist wird für die Schuldverschreibungen auf fünf Jahre verkürzt.

§ 9 Änderung der Anleihebedingungen, Gemeinsamer Vertreter

- (1) *Änderung der Anleihebedingungen.* Die Gläubiger können vorbehaltlich der Einhaltung der aufsichtsrechtlichen Voraussetzungen für die Anerkennung der Schuldverschreibungen als AT1 Instrumente und der von der Emittentin einzuholenden vorherigen Zustimmung der zuständigen Behörde entsprechend den Bestimmungen des Gesetzes über Schuldverschreibungen aus Gesamtemissionen (Schuldverschreibungsgesetz – "**SchVG**") durch einen Beschluss mit der in § 9(2) bestimmten Mehrheit über einen im SchVG zugelassenen Gegenstand eine Änderung der Anleihebedingungen mit der Emittentin vereinbaren. Die Mehrheitsbeschlüsse der Gläubiger sind für alle Gläubiger gleichermaßen verbindlich. Ein Mehrheitsbeschluss der Gläubiger, der nicht gleiche Bedingungen für alle Gläubiger vorsieht, ist unwirksam, es sei denn, die benachteiligten Gläubiger stimmen ihrer Benachteiligung ausdrücklich zu.
- (2) *Mehrheitserfordernisse.* Die Gläubiger entscheiden mit einer Mehrheit von 75% der an der Abstimmung teilnehmenden Stimmrechte. Beschlüsse, durch welche der wesentliche Inhalt der Anleihebedingungen nicht geändert wird und

owner would not have been made or the payment of Additional Amounts in respect of a payment to the beneficial owner in accordance with the above provisions could have been avoided if the latter had also been the legal owner (Holder) of the Notes.

- (2) *FATCA.* All amounts payable in respect of the Notes shall be made subject to compliance with Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 (the "**Code**"), any regulations or agreements thereunder, including any agreement pursuant to Section 1471(b) of the Code, and official interpretations thereof ("**FATCA**") and any law implementing an intergovernmental approach to FATCA. The Issuer will have no obligation to pay Additional Amounts or otherwise indemnify a Holder in connection with any such compliance.

§ 8 Presentation Period

The presentation period provided in § 801(1) sentence 1 of the German Civil Code (BGB) is reduced to five years for the Notes.

§ 9 Amendments to the Terms and Conditions, Holders' Representative

- (1) *Amendment to the Terms and Conditions.* In accordance with the German Act on Issues of Debt Securities (*Gesetz über Schuldverschreibungen aus Gesamtemissionen* – "**SchVG**"), the Holders may, subject to compliance with the requirements of regulatory law for the recognition of the Notes as AT1 Instruments and the Issuer having obtained the prior approval by the competent authority, agree with the Issuer on amendments to the Terms and Conditions with regard to matters permitted by the SchVG by resolution with the majority specified in § 9(2). Majority resolutions shall be binding on all Holders. Resolutions which do not provide for identical conditions for all Holders are void, unless Holders who are disadvantaged have expressly consented to their being treated disadvantageously.
- (2) *Majority.* Resolutions shall be passed by a majority of not less than 75% of the votes cast. Resolutions relating to amendments to the Terms and Conditions which are not material and which do not relate to the matters listed in

die keinen Gegenstand des § 5 Absatz 3, Nr. 1 bis Nr. 9 SchVG betreffen, bedürfen zu ihrer Wirksamkeit einer einfachen Mehrheit der an der Abstimmung teilnehmenden Stimmrechte.

- (3) *Abstimmung ohne Versammlung.* Alle Abstimmungen werden ausschließlich im Wege der Abstimmung ohne Versammlung durchgeführt. Eine Gläubigerversammlung und eine Übernahme der Kosten für eine solche Versammlung durch die Emittentin findet ausschließlich im Fall des § 18 Absatz 4 Satz 2 SchVG statt.
- (4) *Leitung der Abstimmung.* Die Abstimmung wird von einem von der Emittentin beauftragten Notar oder, falls der gemeinsame Vertreter der Gläubiger (wie gemäß § 9(6) bestellt) zur Abstimmung aufgefordert hat, vom gemeinsamen Vertreter der Gläubiger geleitet.
- (5) *Stimmrecht.* An Abstimmungen der Gläubiger nimmt jeder Gläubiger nach Maßgabe des Nennwerts oder des rechnerischen Anteils seiner Berechtigung an den ausstehenden Schuldverschreibungen teil. Das Stimmrecht ruht, solange die Schuldverschreibungen der Emittentin oder einem mit ihr verbundenen Unternehmen (§ 271 Absatz 2 HGB) zustehen oder für Rechnung der Emittentin oder eines mit ihr verbundenen Unternehmen gehalten werden.
- (6) *Gemeinsamer Vertreter.* Die Gläubiger können durch Mehrheitsbeschluss zur Wahrnehmung ihrer Rechte einen gemeinsamen Vertreter für alle Gläubiger bestellen. Ist der gemeinsame Vertreter zur Beschlussfassung zu Änderungen berechtigt, die einer qualifizierten Mehrheit nach § 9(2) bedürfen, bedarf die Bestellung des gemeinsamen Vertreters derselben qualifizierten Mehrheit. Der gemeinsame Vertreter hat die Aufgaben und Befugnisse, welche ihm durch Gesetz oder von den Gläubigern durch Mehrheitsbeschluss eingeräumt wurden. Er hat die Weisungen der Gläubiger zu befolgen. Soweit er zur Geltendmachung von Rechten der Gläubiger ermächtigt ist, sind die einzelnen Gläubiger zur selbständigen Geltendmachung dieser Rechte nicht befugt, es sei denn, der Mehrheitsbeschluss sieht dies ausdrücklich vor. Über seine Tätigkeit hat der gemeinsame Vertreter den Gläubigern zu berichten. Für die Abberufung und die sonstigen Rechte und Pflichten des gemeinsamen Vertreters gelten die Vorschriften des SchVG.

§ 10

Begebung weiterer Schuldverschreibungen, Ankauf und Entwertung

AVAILABLE DISTRIBUTABLE ITEMS AND RISK AND CAPITAL PERFORMANCE OF THE BANK

Available Distributable Items

Pursuant to the Terms and Conditions of the Notes, Interest Payments in respect of the Notes are entirely discretionary (i.e. Interest Payments will not accrue if the Issuer has elected, at its sole discretion, to cancel payment of interest (non-cumulative), in whole or in part, on any Interest Payment Date) and subject to the fulfilment of certain conditions.

In particular, Interest Payments will not accrue, in whole or in part, on any Interest Payment Date if and to the extent that a competent authority orders that all or part of the relevant payment of interest be cancelled or another prohibition of Distributions is imposed by law or an authority.

Further, pursuant to § 3(8)(b)(i) of the Terms and Conditions of the Notes, Interest Payments will not accrue, in whole or in part, on any Interest Payment Date

"to the extent that such payment of interest together with (1) any additional Distributions (as defined in § 3(9)) that are simultaneously planned or made or that have been made by the Issuer on the Notes and other Tier 1 Instruments (as defined in § 3(9)) in the then current financial year of the Issuer and (2) the total amount of write-ups (if any) in accordance with § 5(4)(b) or in respect of other AT1 Instruments which shall be effected as of the relevant Interest Payment Date or have been effected in the then current financial year of the Issuer would exceed the Available Distributable Items (as defined in § 3(9)), provided that, for such purpose, the Available Distributable Items shall be increased by (i) an amount equal to what has been accounted for as expenses for Distributions in respect of Tier 1 Instruments (including payments of interest on the Notes) in the determination of the profit (Gewinn) on which the Available Distributable Items are based, and (ii) any other amounts that may be included for the purposes of determining the amounts distributable on additional tier 1 instruments under capital regulations applicable to the Issuer from time to time".

In order to determine whether the Issuer will be permitted, pursuant to the preceding sentence, to make an Interest Payment on the Notes on any Interest Payment Date, the Issuer will first determine the Available Distributable Items in accordance with the Terms and Conditions of the Notes by determining:

- the annual profit (*Jahresüberschuss*) as of the end of the financial year of the Issuer immediately preceding the relevant Interest Payment Date on the basis of the relevant unconsolidated annual financial statements of the Issuer prepared in accordance with German commercial law for the financial year of the Issuer immediately preceding the relevant Interest Payment Date,
- adding, as applicable, any profits brought forward and reserves available for that purpose, before distributions to holders of own funds instruments on the basis of the unconsolidated annual financial statements of the Issuer prepared in accordance with German commercial law for the financial year of the Issuer immediately preceding the relevant Interest Payment Date,
- subtracting, as applicable, any losses brought forward and any profits which are non-distributable pursuant to applicable law or the European Union or Germany or the Articles of Association of the Issuer and any sums placed to non-distributable reserves in accordance with the applicable laws of Germany or the Articles of Association of the Issuer;

in each case with respect to the specific category of own funds of the Notes as AT1 Instruments to which the applicable laws of the European Union or Germany or the Articles of Associations of the Issuer relate and as determined on the basis of the unconsolidated annual financial statements of the Issuer prepared in accordance with German commercial law for the financial year of the Issuer immediately preceding the relevant Interest Payment Date.

The Issuer will then increase such amount by the aggregate amount of interest reflected as expenses in respect of Tier 1 Instruments (i.e. capital instruments which, according to CRR, qualify as CET1 capital or AT1 capital, which will include the Notes and which will also include expenses in respect of payment obligations by the Issuer under support undertakings entered into in relation to certain legacy Tier 1 Instruments issued in the form of non-cumulative preferred securities by consolidated subsidiaries of the Issuer if and so long as such instruments are recognized as AT1 Instruments pursuant to transitional provisions of the CRR) in the unconsolidated annual financial statements of the Issuer for the financial year of the Issuer immediately preceding the relevant Interest Payment Date.

In addition, the determination of the Available Distributable Items (substantially the 'distributable items' as defined in Article 4(1) no. 128 CRR from time to time) shall be based on the Applicable Supervisory Regulations at the time of the determination and, accordingly, only those amounts shall be added or deducted that may be added or have to be deducted (as the case may be) for purposes of determining the amounts distributable on AT1 Instruments under the Applicable Supervisory Regulations. In this context, it should be noted that the definition of 'distributable items' in Article 4(1) no. 128 of the CRR has recently been amended. The interpretation of the amended definition of 'distributable items' and its exact scope are, in the absence of an

established supervisory practice, difficult to predict and there can be no assurance that the Issuer may in practice be permitted to calculate the Available Distributable Items for the purpose of distributions under the Notes as currently assumed by the Issuer. Hence, no assurance can be made as to, and investors should not rely on, the availability of the capital reserve and the amounts blocked for distributions under § 268(8) or § 253(6) of the German Commercial Code (*Handelsgesetzbuch*) or any other amounts for increasing the Available Distributable Items in the future when determining whether Interest Payments will or will not accrue in light of the Available Distributable Items at that time.

After Determining the Available Distributable Items, the Issuer will then, in a sequential order, count against such sum every gross payment on the other Tier 1 Instruments in order to determine, whether by the time the Issuer intends to make an Interest Payment in respect of the Notes, such Interest Payment is covered by the then remaining amount.

For illustrative purposes, the following table sets forth, for the financial years ended 31 December 2020 and 2019, the items derived from the Issuer's unconsolidated income statement and balance sheet (based on the Annual Financial Statements 2020 of Deutsche Bank AG and prepared in accordance with the German Commercial Code (*Handelsgesetzbuch – HGB*), unless stated otherwise) for the respective financial year as well as from the notes to the balance sheet of the respective audited financial statements that affect the calculation of the Issuer's Available Distributable Items as well as interest expenses on Tier 1 Instruments that relate to the foregoing discussion:

TAXATION

PROSPECTIVE INVESTORS OF THE NOTES ARE ADVISED TO CONSULT THEIR OWN TAX ADVISORS AS TO THE TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSAL OF THE NOTES, INCLUDING THE EFFECT OF ANY TAXES, UNDER THE TAX LAWS APPLICABLE IN THE FEDERAL REPUBLIC OF GERMANY AND EACH COUNTRY OF WHICH THEY ARE RESIDENTS OR WHOSE TAX LAWS APPLY TO THEM FOR OTHER REASONS.

The following is a general discussion of certain selected tax consequences in relation to the acquisition and ownership of the Notes under the tax laws of the Federal Republic of Germany. This discussion does not purport to be a comprehensive description of all tax considerations which may be relevant to a decision to invest into the Notes. The following section only provides some very general information on the possible tax treatment of the Notes. In particular, this discussion does not consider any specific facts or circumstances that may apply to a particular investor. Although any information given hereafter reflects the opinion of the Issuer, it must neither be misunderstood as creating any sort of reliance nor as a representation or guarantee, and courts or other relevant authorities may come to different interpretations of the applicable laws. This summary is based on the laws of the Federal Republic of Germany currently in force and as applied on the date of this Prospectus, which are subject to change, possibly with retroactive effect. We have not sought, and will not seek, a binding ruling from German tax authorities as to any of the tax consequences described herein. The German tax authorities may disagree with the discussion herein, and its determination might be upheld by a court. Moreover, there can be no assurance that future legislation, regulations, administrative rulings or court decisions will not change the accuracy of this discussion.

Federal Republic of Germany

Income tax

Notes held by tax residents as non-business assets

Taxation of payments of interest

Payments of interest on the Notes to Holders who are individuals and are tax residents of the Federal Republic of Germany (i.e., persons whose residence or habitual abode is located in the Federal Republic of Germany) are subject to German income tax. In each case where German income tax arises, a solidarity surcharge (*Solidaritätszuschlag*) is levied in addition. Furthermore, church tax may be levied, where applicable.

On 13 December 2019, the law regarding a significant reduction of the solidarity surcharge (*Gesetz zur Rückführung des Solidaritätszuschlags 1995*) came into force. Even though this new law has no impact on the solidarity surcharge levied in addition to the withholding tax, it can affect the solidarity surcharge levied on the income tax liability which the withholding tax is credited against, as the case may be. According to this new law the threshold as of which solidarity surcharge is levied is significantly increased to an individual income tax-threshold of EUR 16,956 (EUR 33,912 for jointly assessed German tax resident investors), so that the solidarity surcharge is abolished in full for approx. 90% of the German taxpayers and partly for a further 6.5% of German taxpayers. Investors are advised to monitor further future developments.

On payments of interest on the Notes to individuals who are tax residents of the Federal Republic of Germany, income tax is generally levied as a flat income tax at a rate of 25% (plus solidarity surcharge in an amount of 5.5% of such tax, resulting in a total tax charge of 26.375%, plus, if applicable, church tax). The total positive investment income of an individual will be decreased by a lump sum deduction (*Sparer-Pauschbetrag*) of EUR 801 (EUR 1,602 for jointly assessed married couples), not by a deduction of expenses actually incurred.

If the Notes are held in custody, or are administered, or if their disposal is executed, by a German branch of a German or non-German credit or financial services institution (*Kredit- oder Finanzdienstleistungsinstitut*) or a German securities trading business (*Wertpapierhandelsunternehmen*) or a German securities trading bank (*Wertpapierhandelsbank*) and such entity credits or pays out the investment income (the "**Disbursing Agent**"), the flat income tax will be levied by way of withholding at the aforementioned rate from the gross interest payment to be made by the Disbursing Agent. The church tax is generally levied by way of withholding unless the Holder has filed a blocking notice (*Sperrvermerk*) with the German Federal Tax Office (*Bundeszentralamt für Steuern*).

If the Notes are not kept in a custodial account with a Disbursing Agent and interest or proceeds from the disposal of coupons are paid or credited upon delivery of the coupons to the holder of the coupons (other than a non-German bank or financial services institution), withholding tax at the aforementioned rate must also be levied by the Disbursing Agent upon the gross amount of the interest or the proceeds.

In general, no withholding tax will be levied if the Holder is an individual (i) whose Notes do not form part of the property of a trade or business and (ii) who filed a withholding exemption certificate (*Freistellungsauftrag*) with the Disbursing Agent but only to the extent the interest income derived from the Notes together with other investment income does not exceed the maximum exemption amount shown on the withholding exemption certificate. Currently, the maximum lump sum deduction amount is EUR 801 (EUR 1,602 in the case of jointly assessed married couples) for all investment income received in a given calendar year. Similarly, no withholding tax will be deducted if the Holder has submitted to the Disbursing Agent a certificate of non-

assessment (*Nichtveranlagungs-Bescheinigung*) which also includes the tax identification number and which has been issued by the relevant local tax office.

If no withholding tax has been withheld, the Holder will have to include its income on the Notes in its tax return and the tax on its investment income of generally 25% plus solidarity surcharge and, if applicable, church tax will be collected by way of assessment.

Payment of the flat income tax will generally satisfy any income tax liability (including solidarity surcharge and, if applicable, church tax) of the Holder in respect of such investment income. Holders may apply for a tax assessment on the basis of general rules applicable to them if the resulting income tax burden is lower than 25%. In this case as well income-related expenses cannot be deducted from the investment income, except for the aforementioned annual lump sum deduction.

The Issuer does not assume any responsibility for the deduction of German withholding tax at the source (including solidarity surcharge and, where applicable, church tax thereon).

Taxation of capital gains

Also capital gains realized by individual tax residents of the Federal Republic of Germany from the sale, transfer, disposal or redemption of the Notes (including gains from the assignment or hidden contribution of the Notes) will be subject to the flat income tax on investment income at a rate of 25% (plus solidarity surcharge in an amount of 5.5% of such tax, resulting in a total tax charge of 26.375%, plus, if applicable, church tax), irrespective of any holding period.

On 13 December 2019, the law regarding a significant reduction of the solidarity surcharge (*Gesetz zur Rückführung des Solidaritätszuschlags 1995*) came into force. Even though this new law has no impact on the solidarity surcharge levied in addition to the withholding tax, it can affect the solidarity surcharge levied on the income tax liability which the withholding tax is credited against, as the case may be. According to this new law the threshold as of which solidarity surcharge is levied is significantly increased to an individual income tax-threshold of EUR 16,956 (EUR 33,912 for jointly assessed German tax resident investors), so that the solidarity surcharge is abolished in full for approx. 90% of the German taxpayers and partly for a further 6.5% of German taxpayers. Investors are advised to monitor further future developments.

This tax treatment will also apply to Notes on which the principal is effectively repaid in whole or in part although the repayment was not guaranteed. If coupons or interest claims are disposed of separately (i.e. without the Notes), the gains from the disposal are subject to income tax. The same applies to gains from the redemption of coupons or interest claims realized by the former Holder of the Notes. The separation (e.g. by first-time assignment) of a coupon or interest claim from the Note is treated as a disposal of the Note.

If the Notes are held in custody, or are administered, or if their sale, transfer, disposal or redemption is executed, by a Disbursing Agent (as defined above) the flat income tax will be levied by way of withholding from the positive difference between the redemption amount or the proceeds from the disposal (after the deduction of actual expenses directly related thereto) and the issue price or the purchase price of the Notes, Church tax is generally levied by way of withholding unless the Holder has filed a blocking notice (*Sperrvermerk*) with the German Federal Tax Office (*Bundeszentralamt für Steuern*) in which case the Holder is required to include the interest income in his or her income tax return and the church tax will then be levied by way of an assessment. If Notes kept or administered in the same custodial account have been acquired at different points in time, the Notes first acquired will be deemed to have been sold first for the purpose of determining the capital gains. Where the Notes are acquired or sold in a currency other than Euro, the acquisition costs and sale proceeds will be converted in Euro on the basis of the exchange rate applicable at the time of sale, respectively, the time of acquisition. If the Notes have been transferred into the custodial account of the Disbursing Agent only after their acquisition, and no evidence on the acquisition data has validly been provided to the Disbursing Agent by the depositary bank which previously kept the Notes in its custodial account, withholding tax will be levied on an amount equal to 30% of the proceeds from the sale, transfer, disposal or redemption of the Notes.

If the Notes are not kept in custody by a Disbursing Agent and proceeds from the disposal or redemption of the Notes are paid or credited upon delivery of the Notes to the holder of such Notes (other than a non-German bank or financial services institution), withholding tax at the aforementioned rate must also be levied by the Disbursing Agent upon 30% of the gross amount of the proceeds.

If no withholding tax has been withheld, the Holder will have to include capital gains from the sale, transfer, disposal or redemption of the Notes in its tax return and the tax on its investment income of generally 25% plus solidarity surcharge and, if applicable, church tax will be collected by way of assessment.

Payment of the flat income tax will generally satisfy any income tax liability (including solidarity surcharge and, if applicable, church tax) of the Holder in respect of such investment income. Holders may apply for a tax assessment on the basis of general rules applicable to them if the resulting income tax burden is lower than 25%. Further, if the withholding tax on a sale, transfer, disposal or redemption of the Notes has been calculated from 30% of the respective proceeds (rather than from the actual gain), a Holder who is an individual tax resident may and in case the actual gain is higher than 30% of the respective proceeds and, according to administrative guidance, the difference between the actual gain and 30% of the respective proceeds is more than EUR 500) must also apply for an assessment on the basis of his or her actual acquisition costs. In this

case as well income-related expenses cannot be deducted from the investment income, except for the aforementioned annual lump sum deduction.

The Issuer does not assume any responsibility for the deduction of German withholding tax at the source (including solidarity surcharge and, where applicable, church tax thereon).

Any capital loss incurred from the sale, transfer, disposal or redemption of the Notes can only be offset against positive income from capital investments. The Disbursing Agent will offset the losses with positive income from capital investments entered into through or with the same Disbursing Agent and carry forward any losses that cannot be offset to the following calendar year. If losses cannot be offset in full against positive investment income by the Disbursing Agent, the Holder can, instead, request that the Disbursing Agent issues a certificate stating the losses in order for them to be offset against other positive income from capital investments or carried forward in the assessment procedure. The request must reach the Disbursing Agent by 15 December of the current year and is irrevocable.

Losses arising from the fact that a receivable is fully or partially irrecoverable or arising from the fact that the receivables under the Notes are cancelled as worthless and losses arising from a transfer of a worthless Note to a third party or from any other default can be offset only up to an amount of EUR 20,000; losses in excess of EUR 20,000 will be carried forward and offset against capital investment income per subsequent year only up to an amount of EUR 20,000.

Please note that the coalition agreement between the German Christdemocratic Party and the German Socialdemocratic Party for the formation of a new German federal government provides that the flat tax regime shall be partially abolished for certain capital investment income, in particular interest income. That means however that income received by investors holding the Notes as private assets may be taxed at individual progressive income tax rates of up to 45% in the future (plus a 5.5% solidarity surcharge thereon, and church tax, if applicable to the individual investor). There is, however, no draft bill available yet and a lot of details are hence still uncertain.

Notes held by tax residents as business assets

Payments of interest on Notes and capital gains from the sale, transfer, disposal or redemption of Notes held as business assets by German tax resident individuals or tax resident corporations (i.e., corporations whose legal domicile or place of effective management is located in the Federal Republic of Germany), including via a partnership, as the case may be, are generally subject to German income tax or corporate income tax (in each case plus solidarity surcharge and, if applicable, church tax). The interest and capital gain will also be subject to trade tax if the Notes form part of the property of a German trade or business.

If the Notes are held in custody, or are administered, or if their disposal is executed, by a Disbursing Agent (as defined above), tax at a rate of 25% (plus a solidarity surcharge of 5.5% of such tax and, if applicable in the case of individuals, church tax) will also be withheld from interest payments on Notes and generally also from capital gains from the disposal or redemption of Notes held as business assets. In these cases, the withholding tax does not satisfy the income tax liability of the Holder, as in the case of the flat income tax, but will be credited as advance payment against the personal income or corporate income tax liability and the solidarity surcharge (and, if applicable in case of individuals, against the church tax) of the Holder, or, will be refunded in the amount of any excess.

German tax resident corporations should generally not be subject to withholding tax on capital gains from the sale, transfer, disposition, or redemption of the Notes (i.e., for these corporations only interest payments, but not capital gains from the sale or redemption of the Notes are subject to the withholding tax regime). The same applies upon notification by use of the officially prescribed form towards the Disbursing Agent in the case of Notes held by German tax resident individuals or partnerships as business assets.

Notes held by non-residents

Payments of interest on Notes and capital gains from the sale, transfer, disposal or redemption of Notes are not subject to German taxation in the case of non-residents, i.e. persons having neither their residence nor their habitual abode nor legal domicile nor place of effective management in the Federal Republic of Germany, unless the Notes form part of the business property of a permanent establishment maintained in the Federal Republic of Germany, or for which a permanent representative has been appointed in the Federal Republic of Germany. Interest may, however, also be subject to German income tax if it otherwise constitutes income taxable in Germany, such as income from the letting and leasing of certain German-situs property or income from certain capital investments directly or indirectly secured by German situs real estate.

Non-residents of the Federal Republic of Germany are in general exempt from German withholding tax on interest and capital gains and from solidarity surcharge thereon. However, if the interest or capital gain is subject to German taxation as set forth in the preceding paragraph and the Notes are held in custody, or are administered, or if their disposal is executed, by a Disbursing Agent (as defined above), withholding tax will be levied as explained above at "*Notes held by tax residents as business assets*" or at "*Notes held by tax residents as non-business assets*", respectively.

If the Notes are not kept in custody by a Disbursing Agent and interest or proceeds from the disposal of coupons or proceeds from the sale, transfer, disposal or redemption of the Notes are paid or credited to a non-resident (other than a non-German bank or financial services institution) upon delivery of the coupons or the Notes, respectively, such payments will also be

subject to withholding tax to the extent and at a rate as explained above at "*Notes held by tax residents as non-business assets*".

Inheritance and gift tax

No inheritance or gift taxes with respect to any Note will generally arise under the laws of the Federal Republic of Germany, if (i), in the case of inheritance tax, neither the decedent nor the beneficiary, or, in the case of gift tax, neither the donor nor the donee, is a tax resident of the Federal Republic of Germany, (ii) such Note is not attributable to a German trade or business for which a permanent establishment is maintained, or a permanent representative has been appointed, in the Federal Republic of Germany, and (iii) the claims under such Note are not directly or indirectly secured by German situs real estate or ships which are registered with a German ship register. Exceptions from this rule apply to certain German citizens who previously maintained a residence in the Federal Republic of Germany.

Other taxes

No stamp, issue, registration or similar taxes or duties will be payable in the Federal Republic of Germany in connection with the issuance, delivery or execution of the Notes. Currently, net assets tax (*Vermögensteuer*) is not levied in the Federal Republic of Germany.

The proposals for the introduction of a financial transaction tax

The European Commission has published a proposal for a Directive for a common financial transaction tax ("**FTT**") in certain participating EU Member States.

The proposed FTT has very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. However, the issuance and subscription of the Notes should be exempt.

The FTT could apply to persons both within and outside of the participating EU Member States. Generally, it would apply to certain dealings in financial instruments where at least one party is a financial institution, and either (i) at least one party is established or deemed to be established in a participating EU Member State or (ii) the financial instruments are issued in a participating EU Member State. As of 28 June 2018, according to a report by the Council of the European Union, more preparatory work by the Council of the European Union will be required on the proposed FTT.

The proposed Directive remains subject to negotiation between the participating EU Member States and is the subject of legal challenge. It may therefore be altered prior to any implementation, the timing of which remains unclear.

On 9 December 2019, the German Federal Finance Minister announced another final proposal for a Directive for a financial transaction tax implemented by way of the enhanced cooperation mechanism to 9 other participating EU Member States ("**New FTT**"), which, according to media sources, was revised again in April 2020. As of today, the draft legislation has not yet been made available to the public.

According to publicly available information from the German Federal Ministry of Finance and media sources, the New FTT will only apply to financial transactions involving shares. Therefore, it is still unclear if the New FTT will also cover debt instruments or if the issuance and subscription of the Notes as well as dealings in the Notes will be not subject to the New FTT.

The proposed New FTT remains subject to negotiation between the participating EU Member States. The New FTT could therefore be altered and the scope could be broadened prior to any implementation.

SUBSCRIPTION AND SALE OF THE NOTES

Pursuant to a subscription agreement entered into on 19 November 2021 (the "**Subscription Agreement**"), Deutsche Bank Aktiengesellschaft as Issuer has agreed to sell the Notes, and Deutsche Bank Aktiengesellschaft, acting as bookrunner and lead manager, Banco Bilbao Vizcaya Argentaria, S.A., Banco Santander, S.A., CIBC Capital Markets (Europe) S.A., Commerzbank Aktiengesellschaft, DZ BANK AG Deutsche Zentral-Genossenschaftsbank, Frankfurt am Main, Intesa Sanpaolo S.p.A., Nordea Bank Abp, Standard Chartered Bank AG, UBS AG London Branch, and UniCredit Bank AG as co-lead managers (together with Deutsche Bank Aktiengesellschaft in their capacity as lead managers only, jointly the "**Lead Managers**" or the "**Managers**") have agreed, in each case subject to certain customary closing conditions, to purchase the Notes on the Issue Date at the Issue Price for the aggregate nominal amount of the Notes in order to sell the Notes to investors. In return, the Issuer will pay a combined management and underwriting commission and a selling commission.

Deutsche Bank has undertaken to indemnify and hold harmless each of the Managers of any liability incurring in the context of the subscription and sale of the Notes. The Subscription Agreement entitles the Managers to terminate it in certain circumstances prior to the issue of, and payment for, the Notes.

The Managers and/or their respective affiliates have provided from time to time, and expect to provide in the future, investment services to Deutsche Bank, for which the Managers and/or their respective affiliates have received or will receive customary fees and commissions.

In addition, in the ordinary course of their business activities, the Managers and/or their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of Deutsche Bank.

Other than that there are no interests, including conflicting ones, that are material to the offer or in connection with the issue of the Notes of either natural or legal persons.

No Public Offering

No action has been or will be taken in any country or jurisdiction by the Issuer or the Managers that would permit a public offering of the Notes, or possession or distribution of any offering material in relation thereto, in any country or jurisdiction where action for that purpose is required. Persons who have access to this Prospectus are required by the Issuer and the Managers to comply with all applicable laws and regulations in each country or jurisdictions in or from which they purchase, offer, sell or deliver the Notes or have in their possession or distribution such offering material, in all cases at their own expense.

Selling Restrictions

The restrictions listed below must not be taken as definitive guidance as to whether these Notes can be sold in a jurisdiction. Additional restrictions on offering, selling or holding of these Notes may apply in other jurisdictions. In addition, all notices concerning the Notes will be made by means of electronic publication on the website of the Luxembourg Stock Exchange (www.bourse.lu). This paragraph shall apply so long as any Notes are listed on the official list of the Luxembourg Stock Exchange. In the case of notices regarding the Rate of Interest or, if the rules of the Luxembourg Stock Exchange otherwise so permit, the Issuer may deliver the relevant notice to the Clearing System for communication by the Clearing System to the Holders in lieu of publication as set forth in this paragraph; any such notice shall be deemed to have been given to the Holders on the fifth calendar day after the day on which the said notice was given to the Clearing System.

Rating

The Notes to be issued are expected to be rated Ba3 by Moody's Deutschland GmbH ("**Moody's**"), BB- by S&P Global Ratings Europe Limited ("**S&P**") and BB by Fitch Ratings Ireland Limited ("**Fitch**"). The rating agencies define their ratings as follows:

Moody's: Obligations rated 'Ba' are judged to have speculative elements and are subject to substantial credit risk. Rating categories defined by Moody's rank from 'Aaa' (highest category) to 'C' (lowest category). Moody's appends numerical modifiers '1', '2', and '3' to each generic rating classification from 'Aa' through 'Caa'. The modifier '1' indicates that the obligation ranks in the higher end of its generic rating category; the modifier '2' indicates a mid-range ranking; and the modifier '3' indicates a ranking in the lower end of that generic rating category.

S&P: An obligation rated 'BB' is less vulnerable to nonpayment than other speculative issues. However, it faces major ongoing uncertainties or exposure to adverse business, financial, or economic conditions that could lead to the obligor's inadequate capacity to meet its financial commitments on the obligation. Rating categories defined by S&P rank from 'AAA' (highest category) to 'D' (lowest category). Ratings from 'AA' to 'CCC' may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the rating categories.

Fitch: 'BB' ratings indicate an elevated vulnerability to default risk, particularly in the event of adverse changes in business or economic conditions over time; however, business or financial flexibility exists that supports the servicing of financial commitments. Rating categories defined by Fitch rank from 'AAA' (highest category) to 'D' (lowest category). Within rating categories, Fitch may use modifiers. The modifiers '+' or '-' may be appended to a rating to denote relative status within major rating categories.

Moody's, S&P and Fitch are established in the European Union, are registered in accordance with the CRA Regulation and are included as credit rating agencies in the list of credit rating agencies published by the European Securities and Markets Authority on its website in accordance with the CRA Regulation. "**CRA Regulation**" means Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009, as amended, on credit rating agencies.
